### Heart Troubles

The heart may be weak just the same as the eyes, stomach or other organs. It often happens that a person is born with a weak heart. Then again disease, fevers, over-exertion, nervousness, anxiety, rheumatism, etc. weaken the heart. The result is shortness of breath, palpitation, pain in the heart, or in some of the nerves of the chest or abdomen. The heart should be strengthened with a tonic, and for this nothing equals Dr. Miles' Heart Cure.

"I had LaGrippe last fall as I thought in a mild form. I was weak, tired feeling, and short of breath; could hardly go about, and a good deal of the time sort of an asthmatic breathing and extremely nervous. I began taking Dr. Miles' Heart Cure and Nervine and now I feel so much better in every way. I am so thankful that I began taking this medicine, and shall not hesttate to tell others how much good it has done me."

MRS. F. J. NORTON, Freeville, New York.

The weather has been so mild that the stock has hardly needed to be shedded and as for dry bedding, every farm has been abundantly supplied. The hogs have fattened well under such conditions and although we grumbled some at feeding 65 cent corn, yet after all it was mostly of our own growing and we are now getting 51 to 6 cents for nogs and who dare say those are not good prices:

The cholera has not spread with very great rapidity and "while we hear of a new outbreak now and then, the cases are scattered and it does not sweep over the country as in former days.

THE ROAD QUESTION.

We have had beautiful roads for several months and so far the haul ing has been done under the most favorable circumstances, a team could pull all that the wagon could be loaded with, there was no dust and the wheels rolled along as if on city pavement.

Of course we do not expect such conditions to last forever and even now there is a stir all along the line about this ever present subject. It is very probable that some legislation will be had this winter.

It is a patent fact that the Nebraska farmer does not want macadamized roads at this time. They lots 13 to 16 blk 1 Falls City ..... \$1100 are very nice things to talk about, but having watched the sentiment lots 7, 8 blk 49 Salem ............ \$1350 of the common farmers for a few Revecea Meier to Thos. put in a road at Auburn in Nemaha County and it cost from six to eight thousand dollars per mile bis 2 Verdon ... ... ... \$800 to build it. Now that would make John Anderson and wife to Joseph it cost, even at the lower figure, that it costs on an average of \$50 per mile or \$25 a quarter section. to keep up the road after it is once built.

> Now if we should put that much work, that is, \$25 per quarter section, on our roads in grading and dragging with the King drag, we there are some few bottom roads that it might pay to macademize, it is the dirt road the farmers will have to depend upon,

THE WHEAT SITUATION

The whole state of Nebraska, that is with a few limited exceptions, is showing a very poor prospect for a 1909 wheat crop. Many a field that had been designated as a seed bed, was left unsown because the long continued drouth of the autumn forced the farmer to relinquish his hopes because it was too hard to plow or the clods could not be pulverized sufficiently for seeding.

The wheat that was sown the Restored to Health By Vinol asual time, even if the ground had "I was sick, run-down and finally been plowed early and well harrowed and in pretty good condivertised and decided to try it, or stunted and we have none of me than all other means combined. It the beautiful green fields of other

NEBRASKA HORSES.

Nebraska has some great im porters of the beavy draft stallions and many a first class horse has been stationed throughout the state and fine colts have been the progeny as a result.

had been good specimens to start with, their results would have been splendid. But the farmers have Pharmacy. made one great mistake, we have sold our highest priced mares and have thus disposed of our breeding stock. Horses have been trafficked away as carelessly as we sold our wheat or corn. The goob brood mare ought to become a fixture on the farm and not a trinket of traffic. Another great hinderance to the production of the best horses is the fact that for a few years a town or village may boast of a splendid stallion of a certain breed, Richardson County, Nebraska, against you, th say a Belgian or a Shire, then he is disposed of and only a Clyde or a Percheron can be reached, thus we have a continual mixing of the tion to the town of Rulo Proper, Richardso types and breeds. There is no atcontinue the breeding along breed of mixing their cattle, will not make the least attempt to produce high grade horses of any particu-

Now we may be producing very good horses and of good stamina, but we are not doing the best for keeping up with European breed ers. The only way to do this would be for breeders to demand a certain breed and force the keep

ANOTHER BIG MISTAKE.

The general farmer is making a Frederick e hf tot 3 in range 17.28 something like \$3000 for each 160 just now. There is a strong sentiacres of land and then we are told ment against fruit growing, Many who have good orchards are now letting the stock ruin them, do not replace the trees that die and even in order to make more space to grow more corn to feed more hogs. We have gone corn and hog crazy in this great state. I recently would have very fine roads. While heard a man who had bought a fine young orcherd of 20 acres, planted by one of the most careful men in the state, whose selections going to cut it down. I met an using no moderate language in section. He said, they care nothing for apples and let thousands of bushels rot, or turn in the hogs.

> But it is not apples alone we neglect. A nurseryman said his business was very light, no one seemed to care to plant trees. Nebraska can grow the best pears, grapes, cherries, apples and peaches and every farm onght to have enough of these fruits for home use. If we expect to buy, we will go without half the time, besides own choice fruit. While we busy grain, hay and pork growers may bid without explanation. not care to grow fruit on a com mercial scale, we ought not neglect '

our own fruit baskets.

Then too, we must not stop planting for shelter and windfall off, new trees should be set.

Just now when the new catalogs So far this winter the Nebraska or rather a dark flour if it is not are beginning to come in, we ought with the whiter flour made from put them away carefully on a pile other wheats so we are told that and get them out some evening groves and orchards.

# Pittsburgh Perfect Fences

are enjoying phenomenal success, and are conceded to be far superior to any other fences on the market. Thousands of pleased fence users will testify that "Pittsburgh Perfect" Electrically Welded Fences are superior,

They will not sag in Summer's heat nor break in the cold of Winter. They are made of the best material for fencing purposes. They will conform to the most uneven ground and can be erected over hills and through valleys as well as on level ground. They have MANY other points of merit.

J. C. TANNER Falls City, Neb.

### Are You Doing Yourself Justice?

MR. FARMER:-Are you looking ahead for your son, or if you are a renter are you looking ahead for yourself? Are you going to accept this chance for a homestead that Uncle Sam has made possible for you? Are you dozing over this, while your more alert neighbor is acting? Don't you realize that the irrigated homesteads now being offered by the government in the Big Horn Basin and North Platte Valley will prove to be the richest land prizes that the government has yet bestowed on its citizens. You certainly ought to know of the present land hunger in this country. Now you have the govern ment furnishing you 80 and 160 acre tracts of land irrigated by the intelligence and financial security of Uncle Sam who has suddenly become the greatest irrigator the world has ever known, who offers you abundant and perpetual water with the choicest land at \$35 to \$45 per acre in ten annual payments without interest; land that will yield more in one year per acre than the price of the farm.

Do you realize what a "good thing" this is in this day and age? If you do not, let me tell you something about it,

Personally conducted homeseekers excursions first and third Tuesdays of each morth, Write D. Clem Deaver, General Agent, Landseekers' Information Bureau, 1004 Farnam St., Omaha, for literature. No charge for his services.
