MORE TALENT AT COLLEGE

Prof. H. L. Darner to Connect Himself With Business College

Prof. J. Carl Leister has secured the services of Prof. H. L. Darner, of Columbus, Ohio, in the capacity of instructor in the Falls City Business College. Prof. Darner has also purchased an interest in the school.

With these two gentlemen at the head of it, the College will be one of the strongest and best in the country. Prof. Leister needs no introduction to the public. He has made numerous improvements in the school during the past year and expects to make a great many more, among which will be a new and strictly modern system of bookkeeping. Actual Business from the Start. By this system the student handles all sorts of commercial papers just as he would in business and learns bookkeeping by actual practice, from the beginning to the end of the course.

Prof. Darner has for the last two years been instructor in the famous Zanerian College, of Columbus, Ohio, and assistant editor of the Business Educator, a monthly magazine devoted to the interests of Penmanship and Business Education. He has had a vast experience in this work and has a National reputation as a penman and educator. Prof. Darner will leave Columbus in the near future and both gentlemen will devote the entire summer to advertising instead of conducting a summer school, as advertised. They expect their attendance during the next term will break all previous records and are determined to spare neither time nor expense in making the school one of the best in the state.

THE DAILY PROPOSITION

The Tribune Is Ready When the Public Demands It

With the installation of a linotype machine to our already superior equipment, The Tribune will be in a position to give the public a real, live daily paper, if they really want a daily.

If The Tribune does establish a daily it will be one that will make the natives sit up and take notice. It will be "just different."

Rural Schools Close

During the last week several of our rural schools closed and in many instances very interesting programs were given, and pupils completed the 8th grade work and were presented diplomas. Supt. T. J. Oliver has been kept busy attending the exercises, and on several occasions gave addresses and presented diplomas. He says there will be something like 200 pupils in Richardson county complete the 8th grade work this year.

Accident at Table Rock

Last Friday night C. J. Wood, attempting to syphon kerosene from a barrel at his home, attempted to draw the air out by sucking and drew a large portion of the oil into his mouth and it rapidly went through his system, producing the result of confining him to his bed since. His attending physician says that a little more would have proven fatal, and as it was it has been quite serious for Charley. This morning he is some better and it is thought he will be able to be out in a few days.—Argus

On Saturday night some one entered the house of E. L. Sandusky on south Chase street and ransacked every drawer on the first floor. Mr. and Mrs. Sandusky knew nothing of it until morning, when they went down stairs and found everything turned upside down. No money or silverware was missing, but some tomatoes and eatables were gone. It seems evident they did not find what they were looking for.

There are six crows between Falls City and Atchison at work on the Missouri Pacific shouldering the road bed, leveling out the bed even with the track, seven feet on each side preparatory to raising the track and ballasting.
