Still they talk of paving Stone street.

A. R. Keim is a new one in the newspaper field. He'll find it as strenuous a life as the rest of us, we think.

The annual move to pave Stone street is on with quite a bright prospect for success. Are you a knocker or a booster?

The city administration changed hands this week. The new proprietors will be fortunate if they escape the old one's castomers.

The school board are "up against it". At the meeting Monday night fifteen ballots were taken to find out that half was for and half against.

Really now, don't you feel sorry for the school board? If they do they will be censured and if they don't they will receive the same concoction.

Now that we have a new administration, with a tight grasp upon the lines, perhaps we may expect the water works and wells moved back up town. Or, perhaps, the "wet" ticket elected are off the "water-wagon" now.

Let's get on our "glad rags" and show the Kansas City commercial club that Falls City is the best town on their trip as routed. They will soon be in our midst and is up to us to make the showing. What have we done? What will we do toward making our city more attractive?

### Rev. I. W. Williamson's Letter

Rev. I. W. Williamson, Huntington, W. Va., writes: "This is to certify that I used Foley's Kidney Remedy for nervous exhaustion and kidney trouble and am free to say that it will do all that you claim for." Foley's Kidney Remedy has restored health and strength to thousands of weak, run down people. Contains no harmful drugs and is pleasant to take. Kerr's Pharmacy.

## COMMERCIAL CLUB VISITORS

### Geo. N. Neff of the Kansas City Daily Drivers Telegram Among Them

The representatives of the Kansas City Commercial club, which will visit our city within the next few days, is made up of an interesting body of men, most of whom grew up, or count the place of their birth, on the farm. Many of the men who are on the present trip have been with every trip which the club has made, extending back for a dozen years. Among the number who will visit our city on this trip is George N. Neff, vice president and manager of the Kansas City Daily Drivers Telegram. Mr. Neff commenced as a poor young man in Kansas City in 1886 along with his brothers, one of whom, the Hon. Jay H. Neff was elected mayor of Kansas City in 1904. The Neff brothers as they are familiarly known have made money out of the newspaper business and they control three live stock daily papers, one each in Kansas City, Omaha and St. Louis. Mr. George N. Neff describes himself as one of six brothers, measuring 36 feet and a total weight of 1,200 pounds. He is a bandsaker, wearing a perpetual smile and a good mixer, slightly gray, weighs 250 pounds. You will know him when you see him.

### The Difference

What is the difference between high grade and low grade baking powders?

All baking powders are white and are sold in round cans with bright labels. They look alike, but in contents they are very different.

High grade baking powders are made of pure cream of tartar derived from grapes. They are healthful and economical to use.

Low-grade baking powders are made of alum, an astringent mineral acid.

Before the Pure Food Law only a chemist could tell by analysis one from the other.

But now baking powders have the ingredients printed on the back of the label. By reading the label the housekeeper knows the ingredients and being careful of the welfare of her household, avoids the Alum kind of baking powder.

Good baking powder is one of the most useful things in the kitchen—and there is a difference.

### Two Bargains

I have for sale two of the best farms in Eastern Kansas.
