## Half a Million Dollars

REPRESENTS THE VALUE OF

## Scotts Bluff Irrigated Lands

Sold by the Payne Investment Company and their associate agents in the last thirty days—from May 4 to June 4. A total of 6400 acres in quarters, eighty and forty acre pieces. No one bought more than a quarter.

### The Biggest Sale Ever Made in Nebraska

There must be a reason for this. What is it?

There are no better lands in the world. There is an unlimited supply of water. There is a fine climate. People are getting rich from the crops they raise.

It is easy to make these statements. It is just as easy to prove them. Seeing is believing. Join the next excursion to Scotts Bluff lands, leaving Omaha at 4:10.

### Tuesday Afternoon, June 15th

Take the trip with us or with our associate agent. It will be by all odds the biggest excursion yet run. All have been highly successful. Men have only to see the land. Its possibilities are boundless. Nine, out of every ten who go, buy. Farmers, merchants, doctors, bankers, printers, dentists—all grow enthusiastic over this beautiful country; its fertile soil, its abundant water supply.

The faith of those who live there and of those buying is unlimited. We guarantee you will not be disappointed.

### Sugar Factory Assured

A deal was completed last week which assures at Scotts Bluff one of the biggest sugar factories in the world. It will require contracts for 15,000 acres of beets. These are being signed up now and the factory promises to take care of the 1910 crop. This means a raise in the price of the beet crop from \$4.50 to \$5.00 per ton. You can raise under irrigation from 12 to 25 tons to the acre. If you prefer potatoes you can grow from 250 to 400 bushels to the acre. One man netted \$100 per acre on eighty acres last year. **Come with us, and you can talk to him about it.**
