

MARKET LETTER

From Our Regular Kansas City Stock Yard Correspondent

Kansas City Stock Yards, June 21, 1909. The supply of cattle last week was 37,000 head, a decrease of about 4,000 head from previous week, but an increase of 28,000 head over same week a year ago, as at that time last year business was crippled on account of the high water. In spite of the light receipts, market on medium and heavy weight steers declined 10 to 15 cents up to Thursday, when there was a re-acton account of scarcity. Top steers sold at \$7.00 on different days. Light weights and yearling steers were in best demand. Choice heifers and cows remained steady, while those showing grass ruled 10 to 15 lower for the week. Calves were dull and closed the week 25 cents lower than previous week, occasioned by the heavy increase in the receipts of same. The supply of cattle today is moderate at 9,000 head, choice fed cattle scarce and in good demand. Handy weight steers are in best demand, top today \$7.00, paid for eighty head of 1081 pound steers, bulk of steers selling at \$5.00 to \$7.00. Best cows and heifers are steady this week, others showing grass slow, cows at \$2.75 to \$5.50, heifers up to \$6.60, bulls \$2.75 to \$5.00, calves firm at \$4.00 to \$7.00. Demand for stockers and feeders is improved this week, stockers selling at \$3.75 to \$5.25, feeders \$4.60 to \$5.50. The supply of quarantined cattle continues liberal, 5,000 included in receipts today, market in that division strong and active. Packers claim their indifference is caused by a poor outlet for the dressed product in the east.

The hog market continued its upward turn each day last week, and is again higher today. The supply of hogs at all the markets is very light for this season of the year, and prices paid today are the highest paid at this point since June 1902. The run today is 8,000 head, market strong to 5 higher. Heavy hogs are selling at \$7.70 to \$7.95, packers and butchers \$7.70 to \$7.90, light \$7.35 to \$7.75, pigs \$5.75 to \$7.00. With continued light market of hogs, price will pass the \$8.00 mark.

With increased receipts of sheep and lambs last week and quality only fair, market fluctuated widely, mutton grades closing the week with a loss of 15 to 25 cents, lambs suffering a loss of 10 to 20 cents. Receipts included a good many stock sheep. The run today is 12,000 head, sheep 15 to 25 cents off, lambs 25 to 30 cents lower. Some spring lambs sold at \$8.50 today. Bulk of lambs sell at \$6.75 to \$8. wethers \$4.50 to \$5.50, ewes \$4.35 to \$5.15, goats \$3.25 to \$4.00.

POOR HENRY IN NO DANGER.

Bashful Man Unduly Alarmed Over Simple Request, But Then It Was in Leap Year.

This is a belated leap-year story that happened to get overlooked in the holiday rush of 1908. But better late than never, as the Long Island conductor said when his train came in four hours behind time. Her name was Gladys Genevieve Jones, and the name of the other party to the episode was William Henry Harrison Hankins. Gladys had attained the mature age of 29 summers, while William Henry, etc., had also reached the age of discretion, with a few years over for good measure.

William Henry and Gladys had long been friends, but today, for the first time, she had taken advantage of her leap-year privileges and invited him out for a moonlight drive. Blushingly he had accepted—for Mr. Hankins was one of these bashful swains who never get over the habit of blushing when in the presence of the opposite sex.

Gladys Genevieve believed in doing things right. She had driven the coy and diffident Hankins to the nearest village, four miles away, with all the et ceteras and trimmings, and now, at last, they were on their homeward journey. For a time they rode along wrapped mostly in silence, and then Gladys suddenly gave a little shiver, moved closer to her companion's side, looked up inquiringly into his face, and began:

"Mr. Hankins, don't you think it would be a good plan if we were to double up—"

She was interrupted by a wild cry of alarm from Mr. Hankins. The next instant he had sprung from the sleigh and fled swiftly into the starlit night.

"Now, I wonder what on earth startled the poor fellow that way?" ruminated Gladys Genevieve, as she drove slowly homeward, alone. "I was only going to ask him if he didn't think it would be a good plan if we were to double up the lap robe on account of the air being so chilly, when he sprang out and dashed away like a madman. Must have somehow got the idea in his head that I was about to propose. Dear me! what poor, half-witted, scary creatures the men are, anyway!"—Judge.

Do you eat enough of this

The great benefit in health and strength that always is enjoyed by regular eaters of good oatmeal is known the world over. Every year there are more and more eaters of Quaker Oats, which is recognized in this country and in Europe as the one perfect oatmeal.

All the experiments of the government food experts and the athletic trainers of Yale University prove that cereal eaters are the strongest and healthiest, and Quaker Oats stands at the head of the list of cereal foods. It is not only the best food, but it's the cheapest food on earth. Eat it daily for breakfast.

For city trade Quaker Oats is packed in the regular size packages, but for those who are not conveniently near the store for daily shopping the large size family package is just the thing.

HINT TO THE YOUNG

FOR COMFORT IN AGE ONE MUST SAVE IN YOUTH.

Systematic Putting Away of Part of Money Earned Is the Only Way to Do It—Figures Worth Studying.

A young man who would have a competency at the end of ten years must make sacrifices for the first two or three years. Say that you, for instance, are earning \$30 a week. At the present time you may be spending nearly all of this, as thousands of others are doing, says a writer in The Bookkeeper. Now, during the first year, you must save \$1,000. "Why," you exclaim, "if I should save \$1,000 a year that would make \$10,000 at the end of ten years, without counting the interest! You're off in your figuring!" But wait. We are supposing now that you are having your share of prosperity, and that at different times within the next few years you will have doctor's bills to pay and may even be without employment at times. These things must be taken into consideration if you would save \$10,000 in ten years.

So the first year you save \$1,000. This leaves you a little less than \$11 a week upon which to live during that time. Perhaps you will have to move out of your present home and rent one that is cheaper. For a time it will also be necessary for you to contract fewer tailoring bills, and in all probability you will get your wife to aid you in economizing; but you must save \$1,000 during that year and you will find that you can do it.

In the second year your load will become lighter, and then you will see why it was necessary for you to save \$1,000 during the first year. The \$1,000 you can easily place out at five per cent. interest and at the end of the second year it will have earned you \$50. So during this second year you have to save only \$950. In other words, you have one dollar a week more to spend on the comforts of life during the second year than the first. In this way your load continues to get lighter and lighter. You begin your third year with \$2,000 out at interest, and during this year need save only \$900, which leaves you two dollars a week more to spend than during the first year; and so it goes until at the end of your fifth year you are saving only \$750 a year, or less than one-half of your \$1,500 salary. Each year you have more to spend. At the end of your eighth year you are saving just \$125.00 a week, while you have \$17.50 to spend.

At the end of your tenth year you have \$10,000, which is earning you \$500 a year, and which may even bring you \$600 or \$700 a year, if you invest it well. If you were only 30 years of age when you began saving you are still too young to retire on \$50 a month, but now you can spend all that you earn, and at the end of another ten years, if you do not gather the "honey" which your \$10,000 is making for you, you will be worth a little over \$17,000, which, at six per cent., will bring you an income of \$85 a month for the rest of your life.

A modification of the above scheme can be made to work to the profit of any wage earner, no matter what his weekly earnings may be, granting, of course, that they are sufficient to live upon comfortably. For instance, if the man who earns \$15 a week could save seven dollars a week for 14 years he would have acquired a little fortune of \$5,000. This task of saving seven dollars a week out of \$15 a week for 728 weeks seems stupendous at first, but when you figure it out carefully you will see that it is not so difficult after all. In the first place, you would have to save seven dollars a week only for the first year, just as the man who was working for \$10,000 had to save \$1,000 for the first year only. At the end of the first year you would have \$728 working for you, second year this would have earned you \$18.20 at five per cent., so that this year you would need to save only \$345.80 instead of \$364, or \$6.65 a week. During the third year you would have \$728 working for you, which at five per cent., would earn \$36.40, leaving you \$6.30 to save each week that year. Figuring in this way in the beginning of your sixth year you would have to lay aside only \$5.80 weekly; at the beginning of your ninth, \$4.20, and at the beginning of your twelfth, only \$3.15. Yet at the end of your fourteenth year you would have saved over \$5,000, which, properly employed, would mean a great deal to you in the years to come.

Pain Weakens

Headache, rheumatism, neuralgia, or pains of any nature weaken the system—they are a strain upon the nerves. Almost instant relief can be obtained by taking Dr. Miles' Anti-Pain Pills, and without any bad after-effects. Take one on first indication of an attack—it will ward it off. They are a pleasant little tablet, sold by druggists everywhere, 25 doses 25 cents; never sold in bulk.

"I was subject to constant headaches for a period of four years. At times I was almost unfit for the work in which I am engaged, that of station agent. Through the advice of a friend I tried Dr. Miles' Anti-Pain Pills, and the result has been that I have entirely eradicated my system of those continuous headaches that follow a continual mental strain. They have done for me all that is claimed for them."

The Call of the Coast

The Seattle Exposition invites you. The Pacific Coast country, in the development of its marvellous civilization, solicits you to journey through that land. The melting snow of the mountains is a magical resource, shaped to the genius of electrical and horticultural wizards; those mighty forests are the last of their kind left standing in this country; there are no such orchards, orange groves or floral landscapes in the world—nor have there ever been. On a tour of the Coast you pass through an empire, where the romance of the Spanish past has been merged with the human activities of the new West.
