Heart Troubles

The heart may be weak just the same as the eyes, stomach or other organs. It often happens that a person is born with a weak heart. Then again disease, fevers, over-exertion, anxiety, nervousness, rheumatism, etc. weaken the heart. The result is shortness of breath, palpitation, pain in the heart, or in some of the nerves of the chest or abdomen. The heart should be strengthened with a tonic, and for this nothing equals Dr. Miles' Heart Cure.

"I had LaGrippe last fall as I thought in a mild form. I was weak, tired feeling, and short of breath; could hardly go about, and a good deal of the time sort of an asthmatic breathing and extremely nervous. I began taking Dr. Miles' Heart Cure and Nervine and now I feel so much better in every way. I am so thankful that I began taking this medicine, and shall not hesitate to tell others how much good it has done me."

A Necessary Quality.

We require a certain firmness in all circumstances of life, even the happiest, and perhaps contradictions come in order to prove and exercise this; and, if we can only determine so to use them, the very effort brings back tranquillity to the soul, which always enjoys having exercised its strength in conformity to duty.—William von Humboldt.

Fat in Food a Necessity.

Many minor ills of the body would be avoided if only care were taken to include a sufficiency of fat in the diet. Fat, we know, is about the most compact form of fuel which we possess, while it exercises a favorable effect upon the processes of the intestinal tract.

Craving for Occasional Change.

Something in human nature demands the introduction of the element of novelty into existence from time to time. The person is exceptional who can be content in the same routine, day in and day out, for months and years.

Ceylonese Land Leeches.

Land leeches are plentiful in Ceylon. These bloodsuckers hang on bushes and trees and lurk in the grass. The only way to get them off one's body is to squeeze a few drops of lemon on them. Then they fall to the ground.

A By-Product.

A small boy, whose parents believed in the old proverb, "Spare the rod and spoil the child," ran into the house one day exclaiming: "Oh, grandpa, come out here quick! Our switch tree has a peach on it!"—Harper's.

The "story hour" at the public library in Falls City is proving very popular, and is well patronized by the children. An hour in the morning is given over to reading and reciting stories especially interesting to children, and in our opinion this feature is well worth emulation.—Humboldt Leader.

Hiawatha is different from most towns in that the mayor gives his time unstingily to the affairs of the city.—Hiawatha News. No different from Falls City. The town of Stella is receiving quite a little notoriety as a result of a recent complaint of the Press on the scarcity of children of the school age. There are only ninety-seven children in the town of Stella who come in the school age class—and the Press says, "race suicide." Maybe the atmosphere isn't right.

The Sphinx.
The Sphinx was hewn out of the natural rock, with the exception of trifling additions in masonry here and there to complete the shape.
