

Get Free Lands While You Can

BIG HORN BASIN. This rich land is fast settling up with homesteaders taking up the choicest government irrigated tracts. The Big Horn Basin will soon be served by the Burlington's new main line through Central Wyoming; products will have direct access to the best markets in the West. Land values are fast increasing. Get hold of a farm in the basin before it is too late.

320 ACRES LAND. This is the size farm you can homestead in east and northeast Wyoming, Colorado, etc. Some of the finest lands in the West, with 18 inches of moisture annually, can be taken under the Mondell Act. These 320 acre homestead tracts are a new thing in the distribution of government lands, and deserve your attention.

I personally conduct excursions the first and third Tuesdays of each month to these lands, and am employed by the Burlington to answer all inquiries, and to assist you in every possible way to locate along the Burlington lines. Write me.
