We Are Leaders!

WE SET THE PACE!

To you we give the benefit of our 25 years experience in the mercantile business. While we make no pretense that we are in business for your service alone, we do claim that it is our constant endeavor to bring to your door the most desirable wares, at the lowest possible cost. We confidently assert that those who put their trust in and supply their needs as far as they can do so of us will at the end of the year be quite as well off as though they had spent much valuable time running about after so-called bargains. Try us out for a year. Keep close account of your purchases and see if you would gain by putting your judgment of goods against ours.

Ready-to-Wear Garments

Again we have gone more extensively into Women's Ready-to-Wear Garments. The almost universal realization that, such garments are now made not only to fit, but also to wear, in a freshness and novelty of design not possible to any except expert dressmakers, puts upon the modern dry goods merchant the necessity of bringing to his trade a complete stock of garments, for infant, miss and woman. We have now such a stock, bought in the only market that furnishes a full opportunity to meet this demand. You are invited to look these garments over. We are confident that at some time during the season you will buy some of these from us.

New Goods Every Day

Purchases made in market are arriving daily. Ladies wishing Suits, Rain Coats, Waists, Waist Patterns Dress Patterns, Dresses, are urged to make their purchases early. The values are just as good; the choice is much better.
