 Foley's Honey and Tar clears the air passages, stops the irritation in throat, soothes the inflamed membranes, and the most obstinate cough disappears. Sore and inflamed lungs are healed and strengthened, and the cold is expelled from the system. Refuse any but the genuine in the yellow package. Kerr's Pharmacy.

Feeding Farm Hands.

Every farmer's wife knows what tremendous appetites farm hands usually have; but while they eat well they work well, too.
 Here's a good suggestion about feeding farm hands. Give them plenty of Quaker Oats. A big dish of Quaker Oats porridge with sugar and cream or milk is the greatest breakfast in the world for a man who needs vigor and strength for a long day's work. The man that eats Quaker Oats plentifully and often is the man who does good work without excessive fatigue. There is a sustaining quality in Quaker Oats not found in other foods, and for economy it is at the head of the list. Besides the regular size packages Quaker Oats is packed in large size family packages, with and without china.

The Mondell Homestead Lands

We are receiving thousands of inquiries about the 320-acre free homestead lands available for settlers under the Mondell Act. These lands are located in eastern Colorado and Wyoming along the Burlington. The great advantage of this new homestead law is that the settler is permitted to take up free, 320 acres instead of 160 acres, the larger tract being required under the new dry farming methods; northeastern Wyoming has from 16 to 21 inches of moisture, and has produced some of the finest crops of small grains ever seen in the west.

I personally conduct excursions on the first and third Tuesdays of each month to these lands. Write me for special descriptive folders, literature, etc.

IRRIGATED LANDS IN THE BIG HORN BASIN. These government irrigated lands are being fast taken up by settlers who realize the coming value of the Big Horn Basin lands in view of the railroad development in Central Wyoming.

The United States Land and Irrigation Exposition at Chicago, Nov. 20th to Dec. 4th, will be of vital interest to the farmer.
