Strong—Speedy—Roomy—Stylish

There have been many low priced cars, but never one so big, strong, speedy and good looking as this one. In the Hudson "Twenty" you get the best automobile value ever offered for less than \$1000. In this car you find that something called class—that something which other cars at or near this price have lacked.

Most low priced cars have been too small. In the Hudson "Twenty" you get a big car. Note the long wheel base—100 inches. Note the big, strong 32 inch wheels, the large radiator, big hood, staunch, clean made frame.

The Hudson "Twenty" have not seemed to realize that it is as easy to make a good looking car as it is to make another kind.

Here is a car that is big and racy looking. Note the graceful and harmonious lines. Observe the sweep of the fenders and the frame. There is no car with better lines. Judged by every mechanical and engineering standard this car is thoroughly up-to-date without embodying any experimental features.

The Hudson "Twenty" has ample leg room. There is no Roadster made, regardless of price, that affords more comfort to those who ride in it. From the front seat to the dash there is a space of 31 inches. Designers of other cars selling around the price of

Some High-Grade Features of this 1910 Model

Selective, Sliding, Gear Transmission

The Hudson "Twenty" has a sliding gear transmission, selective type, three speeds forward and reverse, such as you find on the Packard, Peerless, Pierce, Lozier and other high grade cars. Most other low priced cars do not have this type of transmission.

Four-Cylinder Motor

The motor is vertical, four cylinder, four cycle, water cooled, known as the Renault type, 3 1/2 inch bore and 4 1/2 inch stroke. And Renault motors are the pride of France.

The springs are of special steel, semi-elliptic in front, and three-quarter-elliptic in the rear, such as you find in the Renault, Chalmers, Detroit, Pierce and others.

The Ideal Car

The Hudson "Twenty" is the ideal car at the price. It leaves nothing to be desired.

Two Color Scheme Used

You have your choice of two tasty color schemes of the "Twenty": a rich maroon, with mouldings and edges of bonnet striped in black; leather blue black. Or battleship gray all over with apple green stripings and upholstery. Fenders fender irons, pedals, and top irons are enameled black. The radiator, steering column, side lamp brackets, hub caps, and side control levers are of brass. Steps are aluminum.

Nothing experimental about it. Nothing untried.

The "Twenty" has been recognized by the Association of Licensed Automobile Manufacturers. It is the only four cylinder licensed car selling for less than \$1,000.

Equipment:—Two large headlights, generator; two side oil lamps, tail lamps, full set tools and horn—\$900.00.

With Bosch magneto, top, Prest-O-Lite tank, double rumble seat.—\$1,050.00.

Our allotment of these cars is limited and orders will be filled in rotation as received. Please call, telephone or write for further information.
