Dear Friend: All flour is made out of wheat, but some wheat is better than others, therefore some flour is better than other kinds.

When you get real good flour it raises nicely and makes good bread. I love good bread. We have good bread at our house. We make it out of Gold Coin Flour.

Listen--
Mr. Renter

Harvest is about over. You have paid a large share of your entire crop to your landlord.

Has it paid? Are you satisfied with the remainder?

Do you realize that dollars paid for rent are dollars that do not come back?

They're gone, and unless you strike out for yourself and your boys, more are going next year.

Here is a money-saving proposition.

Go with me into the Big Horn Basin.

Buy a small irrigated farm on easy payments; payments as easy as paying rent in your present locality, and in ten years you'll have A FARM OF YOUR OWN in a growing country where crop-failures are unknown, and good prices prevail.

Write me for details TODAY. I am employed by the Burlington and my services will cost you nothing.

The highest medical authority on foods,
Sir James Crichton Browne, LL.D.—F.R.S.
of London,
gives the best reasons for eating more
Quaker Oats
In an article published in the Youth's Companion of September 23rd, 1909, Dr. Browne, the great medical authority on foods, says, about brain and muscle building—
"There is one kind of food that seems to me of marked value as a food to the brain and to the whole body throughout childhood and adolescence (youth), and that is oatmeal."
"Oats are the most nutritious of all the cereals, being richer in fats, organic phosphorus and lecithins."
He says oatmeal is gaining ground with the well-to-do of Great Britain. He speaks of it as the mainstay of the Scottish laborer's diet and says it pro-

duces a big-boned, well-developed, mentally energetic race.
His experiments prove that good oatmeal such as Quaker Oats not only furnishes the best food for the human being, but eating it strengthens and enlarges the thyroid gland—this gland is intimately connected with the nourishing processes of the body.
In conclusion he says—
"It seems probable therefore that the bulk and brawniness of the Northerners (meaning the Scotch) has been in some measure due to the stimulation of the thyroid gland by oatmeal porridge in childhood."
The Scotch eat Quaker Oats because it is the best of all oat-meals.
