A New Line To the Northwest

Through the Big Horn Basin

The Big Horn Basin is fast settling up and offers the greatest opportunities for farmers, and especially farm renters to secure fine government irrigated farms at the mere cost of the water, and often a single crop can be made to pay for the farm. Ten yearly payments without interest. This is cheaper than paying rent in any locality.

With the completion of the new line this promises to become a great wealth producing region.

The oil, gas and irrigation of the Big Horn Basin will make that country a combination of farm and industrial prosperity.

Write me for full descriptive literature.

Go with me to the Basin and let me help you select a new home. Dollars paid for rent are lost.

O. WAGHTEL

The Book Of God.
A glory glids the Sacred page,
Majestic like the sun,
It gives a light to every age,
It gives, but borrows none.

The Spirit breathes upon the Word,
And brings the truth to sight;
Precepts and promises afford
A sanctifying light.

The hand that gave it still supplies
The gracious light and heat;
His truth upon the nations rise,
They rise, but never set.

Let everlasting thanks be thine,
For such a bright display;
It makes a world of darkness shine
With beams of heavenly day.
—William Cowper.

It is well to suspect that love for sinners which is based on curiosity about the sluns.

It would help the safe of some shoes if they were warranted to squeak in church aisles.

Dear Friend:

I am getting big enough to drink tea and coffee.

Are you?

Papa and mama used to drink coffee just for breakfast, but they get such good coffee now that they drink it three times a day. They say the best coffee in town is handled at Schmitt's Grocery and Meat Market. Your friend,

The Body Of a Range

THE body of a range is practically the life of a range. The life of a range depends on the material of which it is made. CHARCOAL IRON, by actual tests, has been proven to resist rust, heat and crystallization 300% greater than steel.

MAJESTIC RANGE BODIES are all made of CHARCOAL IRON. No other range in the world is made of this material. It costs considerably more than steel, but the MAJESTIC never stands back for cost when it can improve its range. By comparing the life of old-time iron nails with the steel nails of to-day, or old-style iron stovepipe and tinware with the present day steel product, gives you an idea of the lasting qualities of the MAJESTIC over a steel range. This feature alone adds 300% to the life of the MAJESTIC.
