Christian Church.

The Christian congregation of Falls City contemplates erecting a ten or twelve thousand dollar building. The more elaborate the structure, the more to the credit of Falls City. Subscriptions are now being solicited and as soon as \$6,000 in pledges is secured work will be begun.

The plans include an institutional idea on a small scale. Since the town is in dire need of these special features to provide needed facilities for healthful recreation and quiet for the public, the brethren desire the support of all right minded citizens in their laudable undertaking.

A NEW INDUSTRY SECURED

SATISFACTORY SITE SECURED CLOSE TO M. P. TRACKS.

Packing Plant Practically Secured - Main Building 52x80 - With Cement Floors

Monday the committee on securing a site for the new packing plant, closed a deal with Mr. VanDusen, whereby the triangular strip of land lying north of the Missouri Pacific stock yards and at the west of the east side of Stone street, extending down to the railroad tracks—becomes available for the new industry.

Monday evening the committee met with the city council to prevail upon them to open up Stone street on south to the railroad tracks. The council appointed a committee to investigate the matter, which will no doubt report favorably.

The amount of land in the triangular space thus secured is estimated to be approximately $\frac{1}{4}$ of an acre. The price agreed upon being at the rate of \$1,000 per acre. The extent of the tract to be determined by a survey.

Mr. Hanna and his local manager, Mr. Marr, were in Falls City Monday. Mr. Hanna on his return to Atchison in the afternoon, at once placed an order for the bricks needed in the construction of the main refrigerator building. Work will be begun at once upon this building and an office building.

The main structure will be 52x80 with cement floor and fire proof roof.

Other buildings such as boiler and engine house, and auxiliary buildings will be constructed as fast as possible. It is anticipated to practically cover the ground with buildings.

A crematory will also be erected for reducing the waste. This is an important feature and will enable the keeping of the plant clean and free from unpleasant odors.

Mr. Marr is negotiating for building lots convenient to the plant upon which he will erect a dwelling for himself at once.

The company agrees to give bond to the full amount of the city's interest in the plant, fully securing the city against any loss in the event of the plant's failure to make good, for any reason whatsoever.

PAINFUL ACCIDENT.

Engineer at Round House Had Hand Mangled in Mixer.

Last Friday afternoon while R. C. Claiborn, engineer of the construction gang on the new round house, was attending to some fault in the mixer, which required his having his hands in the spur wheel, the power was carelessly turned on. The middle finger and thumb of his right hand were crushed in the gearing, and his hand otherwise badly lacerated. Drs. Boose and Greene dressed the wound, and Claiborn left for the M. P. R. hospital in St. Louis.

Falls City Lady Married.

A very pretty wedding took place at the Methodist parsonage last week when Rev. Brooks united in marriage N. A. Linton of Oklahoma City and Miss Anna T. Dockhorn of this city. After the ceremony they went to the home of the bride, where her mother had prepared a delightful wedding dinner.

The groom is one of Oklahoma City's most highly respected young men.

The bride is a young woman of refinement, and was born and raised in Richardson county. She numbers her friends by her acquaintances. She was beautifully gowned in a pretty soft white silk and wore a handsome white bridal veil.

The Tribune joins their friends in wishing them success and happiness in their new home in Oklahoma.

Curfew.

There is a city ordinance making it a misdemeanor punishable with a fine not to exceed \$25.00 for parents or guardians to allow children under fifteen on the streets unattended after nine o'clock at night.

It is the purpose of the city authorities to enforce the provisions of this law. All persons having the care and oversight of children coming under the limits of this ordinance should take notice and be governed accordingly.

CANDY KITCHEN GROWING.

Substantial Change Taking Place In The Building.

Peter Bacakos, proprietor of the Candy Kitchen, is this week having the partitions taken out which previously separated his store from P. S. Heacock & Son's office, and otherwise making more room for the increased business, which he has established.

Mr. Bacakos has a new soda fountain which he will install as soon as the building is ready, and it is one that would do an Omaha of Kansas City store a credit to own.

When all changes have taken place the Candy Kitchen will occupy almost three times the room it has previously.

Rest Room.

The plans for the new Christian church under consideration include a rest room. A place always open and provided with necessary conveniences such as toilet, heat, light, etc., and free to all. This is a very laudable project and one which ought to receive the hearty endorsement of every citizen of Falls City.

The question in our mind is, why leave this important matter to any one church? Why not make it a city feature and let it be supported by the entire city. That such a place is needed, there can be no question. Country patrons when in town have no place to stay over. No privacy, no comforts whatsoever. Scarcely so much as the common toilet necessities. The only place for the public to wait over in town at present are to be found in the business places, where quiet and privacy are entirely out of the question.

A decent regard for the comfort of the people, who come to town, who do business here, requires that something be done to make their stay in town agreeable and as comfortable as possible. This is a matter for the Commercial club to consider at once.

MAY SECURE A BIG SCHOOL

AN IMPORTANT MOVEMENT ON FOOT TO THAT END.

One of the Most Beneficial Acquisitions that Could Be Secured for Falls City.

There is now a movement on foot among the business men of the city to organize and conduct a big school. No institution that we can think of could be of more value to our growing city than a big up-to-date institution of learning.

There is no reason why, if managed properly, we cannot eventually bring hundreds of pupils annually from the surrounding territory. Many cities smaller than ours and located less favorably have schools with an annual attendance of from 500 to 2000 pupils. Why can we not support such a school, or rather let such a school help support us? Untold benefits aside from the financial gain would be derived from a good school.

The Tribune is always ready to help boost a proposition of this kind, and we hope every business man and every parent will see the need of pushing this project to realization.

Yates.

The funeral services over the body of Mrs. Ella Yates were held in the Christian church last Sunday afternoon, conducted by Rev. F. E. Day. Many former friends of Mrs. Yates and her family gathered to pay their last tribute of respect to the deceased. The services were very touching and at the conclusion the remains were followed by many friends to Steele cemetery.

Ella Goldman was born in Kansas, October 24, 1879. She was married in this city to Herbert Yates, October 14, 1899. They made this city their home until 1906 when they moved to Los Angeles, where they resided until some six months ago, when they moved to Boise City at which place she died February 6, 1910 from tumor.

The remains were shipped back to this city Saturday. Besides her husband she is survived by a sister, Mrs. Charles Foehlinger, her father and mother of this city, and a brother Fred Goldman of Bartlesville, Okla., and to all is extended sincere sympathy in their bereavement.

Nedrow.

Catherine Meyers was born in Somerset county, Pennsylvania nearly seventy-two years ago. In 1849 she was married to Levi Nedrow. Early in the fifties they came to the prairies of Carroll county, Illinois, where they built up a fine home. In 1870 they came to this county, and improved the beautiful place northeast of Falls City. Their latter years, however, were spent in this city. They were blessed with eleven children, five boys and six girls. Eight are living, as follows: Henry, Simon, Mrs. Charles Minshall and Mrs. Emerson Beachel of Norton, Kansas; Mrs. Millard Minshall, of Oklahoma; Mrs. Mary A. Wicks and Wesley, of this place, and Joseph of Stella.

After the death of Mr. Nedrow, nearly two years ago, the deceased made her home with her son, Henry, where the end came Sunday after a long illness.

She leaves a brother, Henry, of Milledgeville, Ill.; a sister, Mrs. Fannie Livengood, at the same place, a sister, Mrs. Hannah Miller, at Omaha, and a sister, Mrs. Simon Saylor, of this city.

Funeral services were conducted by Rev. Watson at the Brethren church in this city Tuesday afternoon. Remarks were also offered by Dr. Mathers and Samuel Lichty touching the life and character of Mrs. Nedrow.

The remains were laid to rest in the Silver Creek cemetery by the side of her husband, children, mother and friends. Truly, a sweet and righteous life has drawn to a close.

Baptist Ladies' Prayer Meeting.

The ladies of the Baptist church will meet at the home of Mrs. G. F. Reichel Friday afternoon. The greater part of the afternoon will be devoted to a prayer service. Let every lady be present.
