Do farmers eat the proper sort of food?

The farmer of today buys a much larger proportion of the food that goes on the table than he did ten years ago. It's a good thing that this is so because he has a great variety to select from.

He should, however, use great care in selecting for the best results in health and strength.

The widespread tendency in the city to increase the amount of Quaker Oats eaten is due very largely to the recent demonstrations by scientific men that the Quaker Oats fed man is the man with greatest physical endurance and greatest mental vigor.

Farmers should give this subject careful thought and should increase the quantity of Quaker Oats eaten by themselves, their children and the farm hands.

FATHER 80 - MOTHER 76

The aged father and mother of a prominent Boston lawyer safely carried through the last two winters by

Vinol

The son says: "My father and mother owe their present strength and good health to Vinol. During the last two trying winters neither of them had a cold, and were able to walk farther and do more than for years. I think Vinol is perfectly wonderful. It certainly is the greatest blood-making, strengthening tonic for old people I ever heard of."

We want every feeble old person in this town to try Vinol. We will return their money without question if it does not accomplish all we claim for it.

A Father and His Daughter

Do you know that one of the sweetest relations in life is that between a father and daughter? Not that he loves his boys less, but they will be able to take their places in the forefront of the battle of life some day and fight their own way to victory. Because of her sex the little girl cannot do this, and is, therefore, in a greater sense dependent for protection on the man she calls father. What have you done to "make good" with your little girl? Are you planning and saving for her? Do you know that the one friend which never deserts you in time of trouble is a bank account? Have you provided that kind of a friend for yourself and your little girl? If not, why not. You ought to come in and talk to us about a matter of so much importance to you and yours.
