 Will Tiehen was down from Salem Saturday in his auto.
 R. A. Dittmar went to Omaha on business Sunday.

Let's have a little talk about "the difference in Clothes"

The difference between good clothing and poor clothing is simply the difference between satisfaction and its opposite.

Clothes that appear pretty good when first donned often begin to have that "care-worn look" after a few weeks wear.

This is the poor kind and the kind that prevails to a greater extent than the well-tailored kind. Such clothes are easier made, and the profits thereon are larger.

To the average man these shabby, ill-fitting clothes are a source of worry, which frets away his energy and takes the keen edge off his wits.

Good clothes do the very opposite; they act as a tonic; the mere fact of being well dressed is strong mental stimulant.

Wear Hargraves' Clothing and see what a splendid tonic it is for your system. This store don't have to argue the fact that it sells only the good kind.

To those men who feel as though they want to invest \$25 in a suit today, we call attention to the matchless values we offer at this price. The fabrics are excellent, the patterns are new and tasteful; the tailoring superb. Really, these suits can be best described by wearing one. We'll only add that the values are exceptional.

Keep this in mind. You can buy clothes of perfect good taste at Hargraves' at all prices, from \$10 on up to \$30. Whatever price you pay you get better clothes here than you can get for the same money at any other Falls City store.
