She leaves a husband, one daughter, Mrs. F. N. Kinton, and one son, Wm. Donaldson.

Farmers should eat more oatmeal.

Although the farmer of today is able to buy almost anything he wants to wear or to eat he isn't paying enough attention to food values when it comes to his own table.

He feeds his stock carefully, avoids over-feeding and selects the stock food that he believes will give the best return in strength and general efficiency.

If he has been watching the extensive researches and experiments on the question of the best human food for muscle and brain he will heed the advice from all sides to "eat more Quaker Oats."

Quaker Oats is mentioned because it is recognized in this country and Europe as the best of all oatmeals. Feeding farm hands on Quaker Oats means getting more work out of them than if you feed them on anything else.

You Get Style Plus Quality

A SERIOUS condition of the Clothing trade today is a continuous sacrifice of style for quality, or quality for style, to maintain a sensible cost. A few makers do combine style and quality, but you know it results in an exorbitant price.

Let us tell you the problem to combine style and quality, yet keep the cost within the ability of the average man, is solved in Clothcraft Clothes. Clothcraft makers have blazed the trail in their scientific tailoring methods.

We investigated the clothing market thoroughly and were independent, because we wanted to offer you the very best the country afforded. And we are proud to be known as the Clothcraft Store.

CLOTHCRAFT
All-Wool Clothes \$10 to \$25

Clothcraft are the only clothes that guarantee you both style and quality at popular prices. We and the makers take all the risk; you take none.
