

"Skin Deep"

'Tis said that "beauty is only skin deep." That's sufficient. Properly gowned and adorned womankind is satisfied with this depth of facial beauty. In the way of adornments—useful and necessary adornments—we are showing the very choicest designs in

Hat Pins Back Combs
Belt Buckles Barrettes
Gold Locket Mesh Bags
Fancy Purses Toilet Articles

The prices are fair and reasonable—not "cheap," but just right. Our show window doesn't tell half the story—so many pretty and useful things necessary for My Lady's toilet that are not in the window. But they are here, subject to your approval.

DAWSON

Ike W. Watson left Sunday afternoon for Lincoln, where he has accepted a lucrative position as stone-mason in the State Journal office. The family will remain in Dawson until suitable quarters are available in Lincoln. This leaves the Outlook in the lurch. The situation is unhappy and perplexing. Dawson needs a paper to conserve local interests. That effort after effort to float a paper, should collapse is regrettable. Dawson can better afford to be without electric lights or other municipal advantages than without a paper. Why not make the matter of exploiting the Outlook a public one. It was a little thing to buy and pay for the piano. A little effort along some lines would make the plant town property, when some one could be found to run it in the interests of Dawson.

The dam for floating the big dredge now working on the Miles ranch, broke again Sunday. Those who happened along the creek were surprised to see the Nemaha suddenly raise several feet. This dam has been giving the dredgers no end of trouble. The material at hand for making dams is of such an unreliable and shifting nature as to make it almost impossible to hold back the water long enough to float the big dredge boat from one digging into the next. All the floating dredges have this difficulty to contend with. It is hoped to get under way again in a few days.

Herman Knauft was a business visitor in Falls City Monday.

Monday Claud Williamson and wife and child went to Falls City.

Miss Florence Judd went to Rulo Monday morning to superintend the opening of a branch sewing school at that place.

There are four applicants for the privilege of running a saloon in Dawson. The matter of getting the requisite number of signers to their petitions is meeting with serious obstacles. The drys threaten to have the list of names published. The recent attitude of some courts with regard to the responsibility of signers of saloon petitions is causing some to hold back, while local complications are also exerting some influence upon erstwhile signers. The chances are favorable to Dawson remaining dry by default.

The dry land dredge south of town is scooping its way to the east, at a healthy rate. Nothing serious interfering, it is bound to make good progress for which all interested will be glad.

Prospects are favorable to an early start on the work in District No. 2. The machinery for the dredge is due to arrive any time, all plans are fully developed and everything waiting to begin throwing dirt. It is expected to finish this contract easily by the time District No. 1, is completed.

The new addition to the Heim cemetery has been plotted and staked out and will be fenced with a woven-wire fence as soon as Emanuel Ulmer can get his necessary force together to do the work.

Havoc by Small Insects.
 Small insects such as flies and mosquitoes play an important part in the dissemination of disease, and where the beasts of prey, for all their ill-repute, kill their units, fleas and flies kill their thousands, while micro-organisms destroy millions of human lives.

A Good Alarm Clock.

How's Business?

THIS ad. is directed at the man who has all the business in his line in this community.

Mr. Merchant—You say you've got it all. You're selling them all they'll buy, anyhow. But at the same time you would like more business.

Make this community buy more.

Advertise strongly, consistently, judiciously.

Suppose you can buy a lot of washtubs cheap; advertise a big washtub sale in this paper. Put in an inviting picture of a washtub where people can see it the minute they look at your ad. Talk strong on washtubs. And you'll find every woman in this vicinity who has been getting along with a rickety washtub for years and years will buy a new one from you.

That's creative business power.
