The evening was spent in playing various games and an enjoyable time was had by all present. At a late hour refreshments were served.

MARKET LETTER.

Letter From our Regular Correspondent at Kansas City.

Kansas City, April 25, 1910.—Fortunately for cattle sellers a broad outlet developed last week, which enabled salesmen to clean up everything without much effort, and at highest average prices of the year. Heavy steers were a drug, whenever light handy weights could be secured, and the close was 15 to 25 lower than the best time of the week on heavy weights. Light steers and she stuff also lost a little of their edge, but still they finished better than the close of previous week. Stockers and feeders were a disappointment to owners, as buyers refused to take stock steers except at a reduction of 15 to 30 cents the last half of the week, and even feeder buyers balked when the competition on fleshy steers from packers became too aggressive. The run of cattle today is 9,000 head, market steady to weak on heavy steers and on she stuff, but light steers are strong to 10 higher. Some 1,600 lb steers sold today at \$8.20, other lots at \$8.10, and bulk of steers at \$7.00 to \$8.00. Choice heifers bring up to \$8.00, and heavy cows up to \$7.50, bulk of she stuff \$5 to \$7.

The rebound of the hog market from the bottom, which was struck last Tuesday, amounts to 30 to 35 cents, including a gain of 10 cents today. Packers had figured that the slight advance in prices granted by them the last half of the week would start a flood of hogs this week to market, but found themselves mistaken today, when only a 5,500 head came in, and had to pay higher prices to fill their orders. Retailers are said to be still charging maximum prices over the counters and consumption is at a low ebb, otherwise packers would buy more freely, figuring from which it don't seem likely that prices will suffer much for awhile. Top today is \$9.40.
