

# "Skin Deep"

'Tis said that "beauty is only skin deep." That's sufficient. Properly gowned and adorned womankind is satisfied with this depth of facial beauty. In the way of adornments—useful and necessary adornments—we are showing the very choicest designs in

**Hat Pins      Back Combs**  
**Belt Buckles      Barrettes**  
**Gold Locket      Mesh Bags**  
**Fancy Purses      Toilet Articles**

The prices are fair and reasonable—not "cheap," but just right. Our show window doesn't tell half the story—so many pretty and useful things necessary for My Lady's toilet that are not in the window. But they are here, subject to your approval.

# Land Seekers Excursion

THE BEST AND SAFEST INVESTMENT IS THE EARTH ITSELF

WHERE? At Aberdeen, South Dakota, Brown County.

WHY? Because the land pays from 25 to 50 per cent on investment.

When? Tuesday, May 3, 1910

Via Missouri Pacific Railway

Go with us on this our personally conducted excursion. The regular homeseeker rates is \$19.85 to Aberdeen, but the firm which we represent has authorized us to announce that the round trip 25 day limit tickets to homeseekers who are seeking and prepared to buy land for a home or investment will be the lowest rate ever made from Falls City to Aberdeen, S. D. The people who go with us will be shown the land free of charge, we only asking for 3 or 4 days of their time while we are showing the land and proving the truth of our statements. You will be under no obligation to buy. Your car fare will be refunded in case of purchase of land.

We have on exhibition at our office some of the products of Brown Co., S. D., maps literature, and the names of many S. E. Neb. farmers and business men who have purchased land in that section of country during the past two years. Come in and let's talk the matter over.

Prices range from \$20 to \$60 per acre, terms to suit purchaser, deferred payments at six per cent. Taxes \$10 to \$18 per quarter. Best of pure water at 20 to 40 feet; no better water on earth. Artesian wells cost \$250 to \$300, never wear out, never freeze, pipe anywhere, pure and wholesome water; there are 300 in Brown county. Aberdeen is supplied entirely by artesian wells. Rich black, sandy loam soil, 18 inches to 4 feet deep with a fine clay subsoil, never bakes, retains moisture, rainfall 26 inches, crops as sure as in Iowa, Nebraska, or Illinois, will produce as many dollars per acre one year with another as Iowa, Illinois, or S. E. Nebraska. A land of big red barns, fine houses, fine horses, cattle and hogs, rural routes, telephones, schools and churches, fine towns and people, fine German localities with good churches and schools, splendid R. R. facilities, cannot get far from town; land rents for one-third delivered, and one-half and owner furnish seed. Brown county is watered by the Jim and Elm rivers; 22 R. R. towns; 192 public schools; 235 teachers; 48 churches; 39 post offices and 15 R. F. D.'s; 150 elevators. Why loan money at six per cent when you can make 25 per cent? Renter, why work for the other fellow? Buy a home of your own. Many farmers raise only corn, cattle, hogs, timothy, clover and alfalfa. Brown county averaged 33 bushels of corn per acre last year. The largest body of land with the least waste you ever saw; corn 30 to 60 bushels per acre; oats 50 to 110; barley 30 to 70; wheat 15 to 40; flax 12 to 30; potatoes 300 to 500; plums, cherries and small fruit abundant; apples and fall wheat raised successfully. Aberdeen bank clearings, \$2,000,000 per month; six banks; deposits \$6,000,000; population 12,000; paved streets; water, sewer and light; value of buildings in process of erection over \$1,000,000; new citizen's bank, seven stories high, 50 by 146; many wholesale houses, factories, colleges and 14 churches; nine lines of railways. Everything as represented or your car-fare refunded. Let us show you this country; land will soon be worth \$100 per acre. Go now and buy while you may. There is only one crop of land—there never will be another. Grasp the golden opportunity while you may.

Mr. Jump of Tecumseh, one of the best farmers of Johnson county, after looking over the south and west carefully, bought 1,000 acres in Brown county and will make his home there.

Wm. Ressler of South Auburn, and family have bought three times in the last four years. No better farmers in Nemaha county.

Over 30 farmers and business men in Nemaha and Johnson counties invested in Brown county land last year and over 30 have bought so far this year and many more will. Cheap rates, through trains.

For further information, call on, phone, write or wire
