BETTER ROADS.

The Question of Better Roads Must Be Rightly Solved.

There is again considerable agitation going on all over our country, in behalf of better roads. This movement should be encouraged. It has been the history of our country in all great reforms that they have been preceded by a full and complete discussion of what ever the movement may have been. The interest that is manifested in behalf of the traveling public is not going to rest till it has been rightly solved. The problem of better roads must some way find a solution. We recommend that when the rural mail delivery had the right of way in the press of our country, there were many that had the belief that the millions the government had to spend for the rural free delivery should be devoted for road improvements. We very much doubt if there is an intelligent farmer to be found that would be willing to give up the mail service; however, it is true the next real great question that is confronting us as a people is the better roads question.

Shall it be a national or to be left to the state government, so that each state may act independent of the other. And the great question involved is doubtless the money question. How can the money be made available, and not the least the kind of road improvement to be undertaken.

While the larger plan should go on and be freely discussed that looks for either state or national leadership in this movement; let our local authorities in every road district see to it that the roads are kept in the best possible condition. Since the advent of the road drag and its free use on the roads, it has made wonderful improvements. The neglect in the use of the drag after the rains is to be deplored. The good example of some farmers should be taken up by others, to drag after the rains as far as their land goes. Let us have the best possible good roads.—Contributed.

Letter from our Regular Correspondent at Kansas City.

Kansas City, June 27, 1910. Last week was the second in succession in which cattle receipts were greater than the corresponding week last year, the excess being 15,000 head each week, and this liberal supply, in conjunction with heavy runs elsewhere and lower reports from outside points caused the biggest smash in prices of any week this year. The very best steers last 25 cents, medium grades of natives closed 25 to 50 cents off, and lower grades, and butcher stuff, lost 60 cents to one dollar. Grass cattle from native territory started pretty freely last week. Owners in some cases acting before steers had the proper finish, and as buyers were especially alert for this kind, and avoiding them as a pestilence, salesmen had a most unpleasant week, and owners suffered a great disappointment. In the previous week prices had helped up pretty well and the hot weather had caused cattle to take an enormous fill, resulting in extremely poor killing percentage. Buyers finding themselves loaded with this high costing stuff, and with a rather dull flesh meat trade, had both the power and the mood to administer a record breaking drubbing to the market. The wires and the mails were busy with advices to owners to hold off this week and the supply of 7,000 head today testifies to the effectiveness of the advice, also its soundness, as the market is steady today in most cases, and while still sick, moderate receipts for a few days will restore some of the bloom of two weeks ago. Prime steers are worth up to \$8.25, bulk of steers \$6.25 to \$7.25, light grassers down to \$5.25, cows \$3.25 to \$5.75, heifers \$4.00 to \$6.25, bulls \$3.25 to \$5.50.

The principal indicative straw in the hog trade last week was the increasing anxiety of buyers to get away from weight in their droves. Their inability to satisfy instructions fully on this point is rapidly widening the spread between light hogs and the heavier ones and country shippers should demand a liberal discount on the heavy weights. Packers say light hogs can be finished and put into trade channels much quicker than the heavy cuts, besides finding a better demand, and that it is too great a chance to take on heavy hogs at present prices, when the market could easily drop one dollar per cwt before the stuff could be prepared. This condition seems to warrant the prediction that lights will soon be selling one dollar above the heavy weights. Market is steady to 5 lower today on all but lights which are stronger to 5 higher, light hogs \$9.30 to \$9.50, medium weights \$9.25 to \$9.40, heavy \$9.15 to \$9.30, pigs \$8.75 to \$9.00.

C. H. ALDRICH FOR GOVERNOR

Pertinent Comments of Leading Newspapers on the Candidacy of Senator Aldrich for Governor.

The candidacy of C. H. Aldrich for the Republican nomination for governor grows apace, and Republican papers all over the state are giving him unqualified endorsement. Newspapers usually reflect the sentiment of their communities, and this indicates that public opinion is uniting upon Aldrich as the logical candidate of the party this year. It is easy to understand why this is so. In Aldrich is typified the progressive Republicanism of the west. His record speaks volumes in his favor. He is an able, brainy man and a fearless, open fighter. There is not a grain of the trimmer and dodger in his make-up. He is in line with the most progressive thought of the state, and would fitly represent the brain and brawn, the energy and progressiveness of our own great commonwealth as its executive. That is why the Aldrich boom for governor grows.—Peoples Banner.

C. H. Aldrich of David City announces himself a candidate for the republican nomination at the August primaries this year. He says that the party should adopt a platform as progressive as that of 1906. Good. This is the right kind of talk from a man whose record is back of it.—Ainsworth Star-Journal.

C. H. Aldrich of David City, a former state senator, announces his candidacy for the republican nomination for governor this year. Both his legislative record and that as a private citizen makes his candidacy very popular among progressive republicans.—Blair Pilot.

In the candidacy of Senator Aldrich for governor the people have a man who has served them well in the past. He is staunch in his convictions and has the ability to achieve his purposes.—Utica Sun.

At the present time Senator Aldrich of David City seems to be the only candidate in the field for governor on the Republican ticket. He is a man of remarkable ability and if nominated will carry the Republican banner to success next fall.—Columbus Tribune.

C. H. Aldrich of David City is out in an announcement for the nomination for governor on the Republican ticket and taking into consideration his record and his all around fitting characteristics, makes him a man to whom we can turn and enthusiastically work for as governor of the great state of Nebraska.—Kenesaw Citizen.

Some republican papers are booming Hon. C. H. Aldrich for governor. Mr. Aldrich took the republican platform previously and in the legislature proceeded upon the theory that the people wanted what the platform promised. A wonderful job of fulfilling platform pledges was done by that legislature, under the leadership of Senator Aldrich.—York Times.

C. H. Aldrich in his announcement for the republican nomination for governor recognizes the fact that the people of this state are now demanding that every candidate for office make known to the public the things for which he stands in such clear and unequivocal terms that there is no chance for side-stepping or dodging. A personal promise from a man with Aldrich's public record means its fulfillment.—Hebron Journal.

One of the last editorial expressions of the late W. E. Dayton of the York Republican was a strong endorsement of Senator Aldrich for governor. He gave the David City man a certificate of character as a "square dealer," a thorough out-and-out-honest man, and deserving of the support of progressive republicans in this state. Mr. Dayton himself never trimmed or begged a question, and his endorsement of Aldrich was based solely on his personal belief that he found a suitable conjunction of "the man, the time and the place."—Kearney Hub.

The record of C. H. Aldrich as a senator in the 1907 legislature is such that it shows him not only to be possessed of those essentials which fit a candidate for making a strong campaign, but for filling the office of governor with credit to himself and to the state. Senator Aldrich's public services prove him to be an able and honest man and an aggressive champion of the rights of the public.—Humboldt Leader.

Various newspapers over the state are indulging in considerable talk relative to prospective and available candidates for the republican nomination for governor. Out of all that have been mentioned, Hon. C. H. Aldrich of David City seems to be the general choice, due largely to the splendid record he made in the state senate two years ago.—Friend Telegraph.

Why not elect a governor next fall who is not a political trimmer? C. H. Aldrich of David City has a clean record.—Aurora Republican.

Sold On Its Merit

IN A SPHERE OF ITS OWN!

We sell the Crown Piano on its merits. We can show you point by point where the Crown Piano is superior to any other piano you can buy at any price. Remember your piano is the most important purchase you will ever make for your home. It costs but little more, if any, to be sure that it is a good one. We sell the Crown on terms as easy as any good piano can be offered to people who know the difference between a questionable "inducement" and real piano value for their money. Many inferior pianos will cost you more than a Crown. Price does not determine value. I've sold more than a Crown in this territory for 16 years. That is good evidence of their merit. I also handle Strehl & Zedler, Pease and Concord Pianos. These instruments are strictly high grade and too fine to be peddled from house to house through the country, as a great many dealers do. That alone is proof enough that they are a cheap grade of pianos. Anyone contemplating buying a piano in the near future we will be pleased to have call and inspect our pianos.
