Living to Ourselves

"No man liveth to himself," simply because he cannot. He has it in his power (moved by selfishness) to refuse help to the other man, while at the same time he must depend on him or he cannot himself exist. In proportion as the spirit of co-operation is practiced, the community grows and prospers. This bank cannot exist except for the co-operation of the people who dwell here, nor can any other business institution. Should all the people here decide to patronize mail order banks and catalog houses, all the banks and business houses here would have to "shut up shop," and then how quickly real estate values hereabouts would imitate the walls of Jericho and "come tumbling down." These are truths every man should think about when he contemplates either of the things named above. This bank solicits no business, higher rate of interest, more courteous treatment in some distant city bank than we offer you, we shall not question your right to give them your business, but until that time (and thereafter also) protection for your own interests should prompt you to keep your money at home.

Wealth In Irrigation

Congress has just appropriated Twenty Million Dollars to hasten the work of Government Irrigation

THE GOVERNMENT SHOSHONE PROJECT IN THE BIG HORN BASIN

will receive its share and be pushed to completion at once. Contracts for a twelve mile extension of the main canal were let June 27th. More than 150 farms now ready for settlers, and a large number of farms are now being surveyed, which will be open to entry within a few weeks.

These rich lands, irrigated by the Government, can be homesteaded by simply repaying the Government actual cost—\$45 per acre, in ten yearly payments, without interest.

15,000 ACRES OF CAREY ACT LANDS just open to entry—only 30 days residence required. Under this law settlers buy water from the irrigation company at \$50 per acre, and the land from the State at 50 cents per acre, paying \$10 per acre cash, the remainder running over a period of ten years at 6 per cent.

SPECIALLY PREPARED WYOMING LITERATURE just off the press. Write for it today.

Women of Nebraska

BREAD made from average flour is part waste, part impurity and only part food. Bread made from Puritan Flour is every ounce good, pure, blood-making food because Puritan Flour is made exclusively from the nutritious, hunger-satisfying part of the choicest wheat grown. We separate our flour into twenty different "stocks" or streams, then blend it to get into every sack the scientifically right combination of nutritious, bread-making qualities. This is done by actual chemical and baking tests—part of our unexcelled milling system. Your baking can't fail with Puritan Flour.

Best Bread, Cake, Biscuit and Pie-crust you have ever baked—return the balance of the sack and your dealer will refund you money without question. Don't be satisfied with just good flour—when you go to the expense and labor of buying flour, and using up fuel in baking bread and taking your entire system to digest it—you want the finest, the purest, the most nourishing you can buy. You want **PURITAN**—Nebraska's Quality Flour.
