THE REAL ISSUE.

in our eagerness out here in the middle west to herald to the world the magnitude of our corn and wheat crops, the superiority of our beef cattle and thorougnbred swine, and the tremendous productiveness of our domestic hen, we are prone to lose sight of the real issue, namely, the splendid crop of strong sons and fair daughters that the country is producing. In their joyous natures we behold at once the bright sunlight of hope and the beautiful bow of promise of our future greatness and glory. Drought and deluges may destroy our growing crops, disease and degeneration may play havoe among our eaftle on a thousand hills and our treasured porkers in the alfalfa fields; yea, our boasted domestic hen may even occasionally cease her productive labors-all these calamities might conceivably come upon us in its turn, and yet our glory not be dimmed, provided, that our boys and girls be so safeguarded and trained in the home, so educated and disciplined in school, church and other institutions of the country, that they will develop into well-rounded, magnificent specimens of manhood and womanhood.-Prof. McKeever.

THE CAMPAIGN.

The lines are truly falling in most happy places for the progressives. Everywhere the people are arising and asserting their might and shaking themselves free from the grafter and the boss. Nebraska is falling into line rapidly. A clear cut issue is before the people this fall. No one but a fool can possibly err in taking sides. It is a challenge to men to assert their manhood and stand as men for the things that make for home, peace and intelligent prosperity. The Tribune will throw its whole strength into the contest. We have right on our side. For the right we can afford to fight. The issue must be presented to the intelligence of every voter in Richardson county. Not as a party advertisement but as a matter of right and wrong. Men's consciences must be appealed to. No father, can honestly vote against the pleading eyes and pure hearts of his babies. Our people are human. They are also prejudiced. The truth will make them free and as freemen they will break the yoke of the oppressor and proclaim themselves to be men by voting for men.

On the face of the official returns of the primary election,

Jim Dahlman is nominated as the democratic candidate for governor over Shellenberger by a majority of about 70 votes. Barring the possibility that in a recount that lead will be wiped out. that makes the issue in Nebraska this fall a plain one of wet or dry. Mr. Dahlman stands for a

wide open state, the so called rights of the saloon, and the

rule of the bosses. It will be a

Cannot Support Dahlman.

JAMES C. DAHLMAN.

Governor Shallenberger has asked for a recount of the primary ballots. Dahlman expresses himself as heartily in sympathy with the plan. It was a clever move of Shallenberger, as the logical head of Nebraska democracy to claim for himself the full democratic vote and to attribute 20,000 of Dahlman's votes to wet republicans. Naturally, the democrats will take very kindly to this easy way of salving over their defection, and the wet republicans who were so eager to be identified with the new democracy, now find themselves cast off without so much GOV. A. C. SHALLENBERGER.

as a thank you. Whatever may be the result of the recount, the general effect of the result growing out of the primary election will be overwhelming in favor of the republicans. If Dahlman was wise in the wisdom that is really worth while, he would have with drawn at this time, with all his honors. But-is he thus wise ?

· Senator Aldrich of David City, the republican nominee, stands serenely above and away from the storm that is agitating the opposite camp. His lead on Cady was so large and so substantially classified as to fix him firmly in the public mind as the logical representative of the sober thinking people of Nebraska. Before the curtain drops on the Shallenberger-Dahlman medley, Mr. Aldrich will have fully vindicated his claim to be the peopels candidate as against the allied interests. Men will vote their convictions. It is a fight for decency and selfrespect. Only one result is thinkable. Nebraskans cannot deny themselves. Ne-

braska will go dry in 1910.
