

Henry C. Smith LANDS & LOANS

240 acres well improved, 1 1/2 miles from Depot in Kas. Good spring Best of terms. Will take 40 acres as part payment, balance long time at low interest.
200 acres 1 1/2 miles from depot, Richardson county, Nebraska. Good buildings and land. Will take 40 or 80 acres as part payment.
160 acres upland, 1 mile from depot, Richardson county, Nebraska. \$12,000.
160 acres Johnson county, Nebraska. 80 rods to church and school. Best of terms. Might rent 107 acres near Brownville, Nebraska.
80 acres 1/2-mile from Falls City high school.
640 acres, \$8,000 improvements. Also 640 acres adjoining. Will take 160 acres as part payment. Fine running water. A No 1 opportunity.
Money to loan.

USEFUL, BUT DANGEROUS

DR. MORSMAN TALKS ABOUT CARBOLIC ACID.

A Useful But Dangerous Drug—Should Be Handled With Caution—Its Record.

Phenol, or as it is commonly called, carbolic acid, is a coal-tar product. It has been called acid because of its corrosive action when used full strength. It belongs, however, to the group of alcohols, rather than to the acids.

The pure carbolic acid as the druggist gets it, is a crystallized solid, which melts readily into a liquid, but will crystallize again on cooling. To keep it in the liquid state, for greater convenience, we add ten per cent of water or glycerine to the melted liquid. This is what is called liquefied carbolic acid and is entirely too strong for any purpose. Carbolic acid acquires a reddish color from exposure to sunlight. This is no indication of impurity and does not appear to affect its usefulness.

Carbolic Acid in strong solution is an irritant caustic and also has a local anesthetic effect which does not penetrate very deeply. Diluted, it is a germicide, disinfectant, and an antiseptic. It is also destructive to parasites and the low forms of animal life.

The drug is but little used as an internal medicine and should never be used except by the physician. It is a corrosive poison and one-half ounce has caused death. It has a terrible record as an agent for suicide and has a greater number of suicidal deaths to its credit, or debit rather, than all the other poisons put together. Probably the reason for this, is that its universal use makes it easier to obtain, as it is always at hand when the suicidal frenzy is on. It has caused many deaths by accident, being taken by mistake for something else. Wherever this drug is kept, in house or barn, the greatest care should be used to prevent these mistakes. See that your bottle is labeled; keep it by itself away from other medicines, high up out of the reach of children or under lock. Keep it in some out of the way place where you have to make a special trip for that and nothing else. You cannot be too careful about keeping strong poisons separated from your medicines. Carbolic acid kills by paralyzing the respiratory centers and depressing the heart's action.

Carbolic acid is a thick, bad smelling, tarry liquid, used when cleanliness is desired, but except when large quantities are to be used I would not recommend it, because it is of very uncertain composition. As a disinfectant for chicken houses or barns it does very well.

As an antiseptic application to cuts, wounds and to clean sores, a solution of two or three per cent carbolic acid in water acts very nicely and can be applied frequently. For abscesses, ulcers and foul sores the solution should be about four or five per cent, and for veterinary use even up to eight per cent can be used. Even one part to five hundred of water will destroy vegetable spores and microscopic animals.

The processes of fermentation and putrefaction are stopped by a solution of two to five per cent, and this makes it valuable as a disinfectant when applied to the cause, i. e. the putrefying mass, but it is not a good disinfectant for odors already evolved, or offensive exhalations; it only disguises them with its own odor. Hen houses and barns can be kept free from lice and mites by spraying frequently with a solution of carbolic acid, but the emulsion "dips" are more convenient and better for this purpose. They all contain carbolic acid.

I can not name here all the uses of carbolic acid. Wherever there are germs, parasites or putrefaction it is useful, but strong solutions must only be used with caution.

When it is properly diluted it is an effective wash for itch, a good gargle for sore throat, or a mouth wash, a prompt remedy for tooth ache if caused by a sensitive cavity or exposed nerve. To use it for tooth ache moisten a pledget of cotton with the full strength acid and then soak out all the surplus on a rag or towel so that the pledget is nearly dry. Place this in the cavity and over it put a dry pellet of cotton. Do not press it in too tight. It acts quickly.

Always remember that carbolic acid is dangerous. Chicago, I think it is Chicago, has an ordinance that prohibits the sale of carbolic acid in solution stronger than ten per cent except to physicians or on prescription. That ordinance was passed to prevent accidents and suicides. I think this is a good law, because it is impossible to make everyone careful. The careless and thoughtless we have always with us. They wait until the horse is stolen before they get a look for the barn.

Note—In my last article, the compositor who set up the head lines confused Boric Acid with Borax. They are not the same. Borax is a chemical compound of boric acid with sodium. Borax should never be used on sores or wounds because it is an alkali and would be dangerous to use freely in eye washes.

Morsman Drug Co.

Forest Fires

Great and very destructive forest fires are raging in the North-west. Vast reaches of important and very valuable timber land have already been burned over. Much valuable property has gone up in flames, many lives lost and still the progress of the fires in the main are unchecked. Towns and cities are menaced, bands of fire-fighters are surrounded and in danger of destruction. The number of those who have lost their lives cannot be estimated, but it is feared that it will be large. Many of the fires are believed to be of incendiary origin, and the troops have been called out to help hunt down the miscreants who are guilty.

The Tribune Boosters

The Tribune is organizing a system for more effectively advertising our home industries, products, and scenery. We ask interested parties to meet us half way in this work. We are prepared to print post cards of local views, when proper cuts are furnished. We desire to run a first page local feature in The Tribune each week. All we ask is that parties wishing to have their views printed furnish suitable cuts. We are also contemplating the publishing of an illustrated manual of Richardson county in the near future. We are only hindered from going ahead more rapidly by the initial cost of the work. If each one will contribute his mite it will be possible to produce something that is worth while, and that will awaken a proper appreciation for the things at home. Get a half tone cut of your home or business and join the line of boosters.

DO IT NOW

Settle up all arrears and get the Tribune free from now until January 1 1911.

as to the possible outcome of the trip of Theodore Roosevelt thru the west. That it can promise nothing assuring to the reactionaries is becoming more evident every hour. The west is clearly progressive.

THE COMERS AND GOERS

HAPPENINGS OF INTEREST TO YOU AND ME.

What Your Friends and Their Friends Have Been Doing the Past Week.

—Dr. Wilson, Wahl's building.
—The Candy Kitchen for brick ice cream.

Harry Craig is visiting friends at Kankanee, Ill.

J. O. Stalder made a trip to the county capital Saturday.

J. C. Wittwer of Nemaha precinct was in town Monday.

The teachers' institute opened Monday morning with a good attendance.

Simon Beachy attended the Rulo horse show last week.

Claude Yocam has opened up a studio in the building recently vacated by John Oswald.

Miss Bowman of Wichita, Kas., was a guest of Miss Sarah Morsman the first of the week.

Mrs. John Startzel and daughter, May, and son, Byron, are visiting relatives in Melbison.

Lucille Metz and Helen Resterer are in Shubert this week the guests of Miss Rozlie Ahern.

Sam Bucher and daughter, Miss Grace left the first of the week

the home of Thomas Naylor, left the first of the week for a few days visit in Omaha. From there they will go to Chicago where Mr. Cummings will again take up his work at the Armour Institute.

The Corn Prospects.

The prospects for this year's corn crop are improving every day. Many fields will grow a big yield. There are some fields, especially those planted very early, in which the corn had advanced too far to profit much by the rain. But most fields will bear a far bigger yield than the most sanguine expectations of their owners dared hope for.

The Only Chance For Paving

in Falls City, is in voting the town dry and turning the bosses out. There is intelligence enough in Falls City to run the city's affairs to suit the people and without the help of the saloons.

FOR FIVE DOLLARS we will send the Tribune to five names for one year. Or to one address for five years. Pass it along.

WATCH TALK

THE HAPPIEST BOY IS THE ONE WHO GOT A WATCH FOR XMAS OR ON HIS BIRTHDAY

A Watch from Our Store Will Bring Happiness to Anyone, the Boy or Girl the Man or Woman. No other store offers you such a large assortment of fine watches to select from. Look 'em over.

DAVIES & OWENS

JEWELERS AND OPTICIANS FALLS CITY, NEBRASKA

Farmers Will Speak

Farmers have more than a mere commercial interest in the town in which they do their trading. County option will give them a voice in deciding what kind of place their home town shall be.

Law Wittwer from south of Salem, brought his sister, Rachel Wittwer to Falls City Monday. She is attending the institute.

Miss Agnes Moran came up from Kansas City Monday. She is a guest of Miss Kate Mulligan and is attending the institute.

Charles Weinert of east of town was in on business Tuesday. He made a trip west in the spring, but has returned and is busy at work again.

Miss Edna Vaughn is visiting her sister, Mrs. Frank Zimmermann at Sabetha. She took her little nephew home who had been visiting in this city.

Both Mr. and Mrs. Jacob Majerus are ill at their home in the east part of town with typhoid fever. Their children were called home during the week.

Norman Musselman and family will arrive home the first of the week. They have been visiting in Colorado and Kansas for the past few weeks.

Leon Norris arrived the first of the week from Hardin, Mont., and will attend high school here the coming year. He will stay with his aunt, Mrs. I. C. Maust.

Mrs. W. H. Keeling and Anderson Miller returned the first of the week from a visit to relatives in Colorado. They were accompanied home by Mrs. Mike Sweeney and two children, who will spend some time with relatives in this city.

The Morrill News Special Edition

Last week the Morrill News appeared in a double issue. It contained some interesting reading from a historical standpoint. Morrill has a substantial booster of home interests in the person of the editor of the News.

The Roosevelt Letters

Theodore Roosevelt is coming west. His letters will appear regularly in the Tribune. You will not want to miss any. Kindly show the Tribune to your friends.

Notice.

The Horse Show Association will meet at the court house on Saturday, August 27 at 2:00 p. m. —W. F. Rieschick, Sec.

Law of Compensation.

Every man—even the most cynical—has one enthusiasm; he is earnest about some one thing. The all-round trifer does not exist. If there is a skeleton—there is also an idol in the cupboard.—John Oliver Hobbes.

SUMMER FOOTWEAR FOR EVERYONE
H. M. Jenne Shoe Store.

Boost The Homeland

Real estate men interested in the sale of land in other sections of the country cry up their own wares. Naturally we would expect them to do so. But the effect on the home community is become dissatisfied and restless. They find fault with conditions and either move away or begin to invest elsewhere, which is as bad for the home community.

Its the old saw, "distance lends enchantment to the view", which in more modern and western lingo, means that a man appreciates land and home advantages more as they are farther away. There is a reason for this and the real estate hawk is shrewd enough to take advantage of it to his profit. By shrewdly manipulated descriptions and highly colored pictures of what he has to sell he appeals vividly to his victims imagination and gains his end usually to the disadvantage and loss of the other party. Appealed to in this way men will take money out of profitable investments at home and sink it in the most absurd way away from home.

To counteract the tendency on the part of so many to undervalue home advantages and exaggerate advantages at a distance a system of home boosting should be inaugurated. Instead of outsiders giving exhibitions of the products soil and climate of other places why not teach our people to appreciate the wonderful advantage we enjoy by being so fortunate as to be living in Richardson Co., Nebraska. Why should not we give entertainments in our school houses and elsewhere making the advantages of our own county the theme to be illustrated and discussed. It would do hundreds of our people no end of good to be shown in the most striking and convincing way possible all the strong features of the homeland. Our systems of public and private instruction are woefully deficient in both method and the means for teaching our boys and girls a reasonable appreciation of the beauty and worth of their own surroundings. There is no place like home and yet of all places we abuse none so much.

Taft and Roosevelt

The Taft and Roosevelt situation is becoming more interesting every day. It would be difficult to forecast the setting of the scenes when the curtain finally drops on this remarkable piece of staging. This much is certain, Uncle Joe must give way, much as the sturdy old fighter disclaims to. With Aldrich and Canon out the chances are good for the taking over of the president into the insurgent camp. Stand-pat ism has been getting some knock-out blows in the recent primaries. It has lost so heavily as to cause serious concern among the regulars. Real apprehension is felt.

A Bad Misstep.

While O. P. Heck was helping his wife pick some peaches from a tree in their garden Monday afternoon, he had the misfortune to step on a nail. He had the wound treated at once and it is healing nicely, and nothing serious is anticipated.

Notice.

The Horse Show Association will meet at the court house on Saturday, August 27 at 2:00 p. m. —W. F. Rieschick, Sec.

CIDER APPLES
The Leo Cider and Vinegar Co., will buy good cider apples on or after August 29. Self-unloader at factory, no shoveling. Bring in your apples while we can use them. 34—4t.

Notice of Incorporation.

Notice is hereby given that the WRIGHT LUMBER COMPANY of Falls City, Nebraska, has been this day incorporated, with its principal place of business at Falls City, Richardson county, Nebraska; the general nature of the business to be retailing and wholesaling of lumber and building supplies; the amount of capital stock authorized is twenty-five thousand dollars (\$25,000.00) divided into shares of one hundred (\$100.00) dollars each, the same to be paid for in cash, or in property of the fair equivalent thereto, at the time of the issuance of said stock; said corporation to commence August 15, 1910 and terminate August 15th, 1935; the highest amount of indebtedness or liability to which the corporation is at any time to subject itself is fixed at two-thirds of the capital stock issued and paid for; and the affairs of the corporation are to be conducted by four (4) directors selected from among the stockholders, and by a president, vice-president, secretary and treasurer, selected from among the directors.

August 15, 1910.

Legal Notice.
In the District Court For Richardson County, Nebraska.

A. D. Annis, Plaintiff,

vs.

C. B. McColm, N. E. McColm, whose real and first names are unknown, and William J. Nelson, Defendants.

The above named defendants, C. B. McColm and N. E. McColm, whose real and first names are unknown, and William J. Nelson will take notice that the above named plaintiff on the 18th day of August, 1910, filed his petition in equity in the Richardson County District Court against them, the object and prayer of which are to foreclose a certain mortgage given by said defendants to one Wallace Benjamin on July 1, 1909, securing a certain note for \$2,750.00 given to said Benjamin on said date, which said mortgage and note were duly assigned to the plaintiff herein on the 23rd day of March, 1910, which said assignment is recorded in Book 41, page 13, of the records of said county, said mortgage being upon the north half of the northeast quarter, and the northwest quarter and the southwest quarter, except ten (10) acres in a square out of the southwest corner of said southwest quarter, all in Section nine (9), and the northeast quarter of the northeast quarter except three and a half (3 1/2) acres out of the northwest corner thereof, and the south half of the northeast quarter, and the northeast quarter of the southeast quarter, and the southeast quarter of the southeast quarter except three (3) acres thereof owned by Robert Bodle, all in Section eight (8), and the east twenty-one and sixty-two one hundredth (21.62) acres of the northeast quarter of the northwest quarter of Section Sixteen (16), all in Township three (3), Range seventeen (17), containing six hundred and five (605) acres more or less, in Richardson County, Nebraska, said mortgage being recorded in Book 35, Page 593 of the Mortgage Records of Richardson County.

You will answer or otherwise plead to said petition on or before the 3rd day of October, 1910, or the allegations therein contained will be taken as confessed and a decree entered in accordance with the prayer of said petition.
