Nebraska Women Have the Choice of the Finest Flour in the World

The demand for Puritan Flour is so great right in our own state of Nebraska, that it taxes the capacity of our mills to supply it. Knowing Puritan quality as we do we keenly regret our inability to meet the orders from far-away points—we would like to make it possible for everybody to enjoy those "bigger—whiter—lighter loaves" that are made from Puritan flour alone. It would be our delight to know of every woman's husband saying—"My dear, how your cooking has improved since you have used Puritan flour." This is an everyday remark in Nebraska.

If you are among the minority who have not tested Puritan flour you had best make the experiment today. Why stick to that merely ordinary good flour? Bread made from the average flour is part waste, part impurity and only part food. Bread made from Puritan flour is all good—all pure—all white—all light. We guarantee every sack of it and have instructed our dealers everywhere to return your money if you do not find Puritan just what we say it is—the best flour you ever used—the finest—the most nourishing—the most satisfactory in all respects.
