Does not this and the fact that it complies with all pure food laws, both State and National, prove that Calumet is absolutely pure?

With the purity question settled—then Calumet is undoubtedly the best Baking Powder. It contains more leavening power; it is more uniform—every can is the same. It assures better results—and is moderate in price.

To the people of Falls City and vicinity, greetings.

Knowing as I do that there are many people who know little or nothing about the Science of Magnetic Healing, or Suggestive Therapeutics, I have concluded to give one and all a chance to investigate them, and for that purpose I will give the hours between 1 and 2 in the afternoon, and two hours between 7 and 9 in the evening over to those who may desire to investigate.

I will at those hours give one treatment free of charge to any one who is interested.

I had intended doing this long ago, but on account of being located in my home it was impossible to do so. But now I am located in the Powell Building, south of the court house, and able to invite you one and all in to see me.

So kindly come in and see what can be in the way of curing diseases without the use of drugs, remember it costs you nothing to investigate.—H. A. Reynolds, Suggestive Therapist 1st. Day phone 504. Night phone 531. 20th-23rd 1st-3rd St.

THAT FAMOUS CHERRY TREE

THE REAL SAORY OF GEORGE AND THE HATCHET

Such An Act Of Heroism Is Worth More Than A Thousand Cherry Trees

"George," said his father, "do you know who killed that beautiful little cherry tree yonder in the garden?"

This was a tough question; and George staggered under it for a moment, but quickly recovered himself; and looking at his father with the sweet face of youth brightening with the inexpressible charm of all-conquering truth, he bravely cried out, "I can't tell a lie pa; you know I can't tell a lie. I did it with my hatchet."

"Run to my arms, you dearest boy," cried his father in transports, "run to my arms; glad am I, George, that you killed my tree; for you have paid me for it a thousand fold. Such an act of heroism in my son is more worth than a thousand trees, though blossomed with silver and their fruits the purest gold."—Weems's Life of Washington.

The veracity of Parson Weems has long been impugned—ever since it was discovered that he had cribbed from "The Life of James Hay Beattie," the story of the seeds planted to spell the name of "George" which he attributed to the Washington family. Now W. B. Norris insists that he has found the real origin of the cherry tree story. A grandson of Weems, living in Texas, has assured him that the incident happened in Weems's own family.

The culprit was Weems's 6-year-old son, Jesse, who cut down a gummy tree, known as the pride of China. Jesse confessed and got a licking. To make his "Life of Washington" more interesting Weems transferred the affair to the Father of His Country and gave the tale a happy ending.

In such ways have histories been written.—K. C. Star.

A native of Germany, she came with her family to America in 1880. Her husband died after they had been here about five years. She leaves three daughters, Mrs. Robt. T. J. AFFINITY AND DIVORCE

KANSAS CITY WOMAN SUES HER HUSBAND FOR DIVORCE

Mrs. Speck Accuses Her Husband of Transferring Affections To A Falls City Woman

The Kansas City Post is authority for the statement that Margaret Ellen Speck of that city has sued her husband, Joseph Speck, a Missouri Pacific conductor, for divorce on the grounds that he has transferred his affections to a Falls City woman. Speck is known here, having spent most of his time here since the plug trains were put on. Some have been under the impression that he was a divorced man and free to pay the attentions to the ladies. His wife claims they have been married twenty years and accumulated a fortune of \$40,000, and asks a share of it as alimony.

Why Not Have A Band

As spring approaches, and the time draws near when music is a commodity to be dealt for, our thoughts turn toward the possibility of organizing a local band. We have the talent and all the requisite material for a good band. All we lack is capable leadership and a getting-together, and going to work. Hiawatha, Humboldt and Table Rock and other nearby towns have good local bands, and Falls City is ever at the necessity of paying them toll, for their help on special occasions. Why not be independent, raise a fund, hire a leader and have a band all our own. We have a baseball club but no band to escort them out in proper style. Never before was Falls City in the way of appreciating a home band so largely as just now. Let us lay hands to and have one. What's to hinder.

MAGUIRE TELLS WHY HE FAVOR RECIPROCIITY PACT

Nebraska Congressman Says It is Not Substitute For Real Revision of The Tariff

Washington, D. C., Feb. 20.—When asked to state briefly his views on the Canadian reciprocity agreement, Congressman Maguire said:

"This is a trade agreement negotiated by representatives of the United States and Canada and submitted to congress by President Taft. I favor the agreement for just what it is worth and no more. It cannot be treated as a substitute for a general tariff bill, nor do I consider it a compliance with the general demand of the people for a genuine revision of the present tariff law.

"I supported and voted for the agreement, and I believe it can be the first place it is a movement for freer trade relations between the United States and Canada, a policy which must inevitably result in benefit to both countries.

"I am unable to understand how, under the circumstances, any consistent and sincere believer in tariff reform could refuse to support this agreement. Although the past does not go far enough in reducing our own schedules as against Canada, yet it will operate to reduce the Canadian tariff wall, and I am willing to trust to the next congress to complete the work of lowering of our own schedules against Canada, where they seem to be either too high or unnecessary.
