certain whether the Democrats had decided to make a condition for the enactment of the Canadian pact the passage of the wool schedule. The Democratic leaders would not discuss this feature of their plans to tack the wool schedule to the Canadian bill. There is no disposition on the part of the Democrats to defeat the Canadian pact and the two propositions can be separated in the senate and acted upon separately by that body. But the house will pass both bills in one.

Announcement of the Democratic plans with reference to the tariff at the approaching special session has caused much comment here. There is no attempt to controvert specific details of the revised wool schedule published. That there was to be a cut in the duties on wool and woolen manufactures has been accepted generally.

In the cut in the duties on the raw wool from 11 and 12 cents a pound to 2 and 4 cents a pound is described as revolutionary. It takes four pounds of this wool to make a yard of cloth and the cut on cloth per yard is from 44 to 48 cents to 8 and 16 cents per yard. Decision to cut other duties on manufactures of wool to the difference in cost of labor at home and

abroad will result in heavier cuts in unsorted duties. Chairman Underwood has figured that the cost of labor on some of these manufactures is only 23 cents while the duties run from 101 to 168 per cent on common wool blankets. He has also figured that the present law raises the Dingley duty on certain classes of woolen manufactures about 25 per cent, while the Dingley law ran from 20 to 60 per cent above what the Democrats believe is a fair revenue tax. The cuts in these duties will be from 45 to 85 per cent.

Telegrams in large numbers came in to Democratic members of the ways and means committee from wool men throughout the country asking to be heard in protest against the Democratic plan for cutting the wool schedule. Representatives of the woolen interests here importuned members of the committee for information as to the proposed extent of the cut in wool rates. The committee is giving out no information. It will use the evidence taken during the framing of the Payne-Aldrich tariff law as the basis for the new rates on wools and woolen manufactures.

Washington, Mar. 22.—President Taft is finally convinced that the Democratic leaders propose to carry through the house their legislative program as outlined and is resigned.
