

# "OUTING CHAINS"

Styles in Men's Chains have changed for the coming season. The

## Coat and Outing Chain

worn in the lapel of the coat will be worn extensively during the spring and summer.

They are safe, insuring the watch from loss; low in price, and decidedly "Nifty."

## SWIFTLY RUSHED THEM INTO JAIL

The Three Alleged Dynamiters Reached Los Angeles.

NO ATTEMPT AT RESCUE

Nor Was There Any Hostile Demonstration Made Against the Prisoners by the Crowds That Awaited Arrival.

Los Angeles, April 27.—The three alleged dynamiters are in the county jail awaiting that sovereign exercise of authority which is termed "Due process of law."

Their arrival was of the tenacity of the dramatic, the end of act one of a situation that holds promise of vast and far reaching import.

Their transfer from the California Limited of the Santa Fe was accomplished with such celerity as to be confusing; outwardly, however, the program of the police worked with the precision and swiftness of a well regulated dynamo.

J. W. McNamara, alias J. B. Bryce, who is charged with murder in connection with the Times disaster and Orrie McManigal, self confessed dynamiter of wholesale and terrifying proportions, were taken from the train at the Pasadena station.

Within half a minute they were in the sheriff's automobile, shackled and guarded before, behind and on every hand, within 25 minutes the double doors of the jail had clanked behind them.

J. J. McNamara, the well poised, calm, imperturbable secretary of the Structural Iron Workers' and Bridge Men's International organization was similarly hustled from the same train at Raymond station; an automobile also awaited his arrival and with a speed that equalled that of the sheriff's car he was landed in jail a few minutes after the others.

There was no demonstration either at Pasadena or before the county jail, save such as would be made by the ordinary occurrences and inquisitive crowd.

There were many who said nothing, whose silence possibly was ominous of unusual emotion.

If so, however, there was no evidence that, in the regard bestowed by any man there was aught of significance. No hand was held out to stay the officers in the fulfillment of their mission; no voice was raised in protest or indignation on behalf of the men accused of destroying property and lives with the utmost cunning and deliberation.

Though there was no hostile demonstration either against the officers or prisoners and no effort was made to embarrass the former the corps of local and Chicago detectives and Burns operatives handled the situation in a way to forestall any accident, any of those subtle movements in the crowds which have, before this, preceded an attempt at rescue.

## GOOD PROSPECTS FOR WHEAT

Secretary Coburn Finds That 5,330,000 Acres in Kansas is in Better Condition Than Last Year.

Topeka, April 27.—The Kansas state board of agriculture has issued a report on the area and condition of the state's winter wheat on April 21. Correspondents indicate that the area sown in the fall of 1910 approximated 6,500,000 acres, or more by about 265,000 acres than in the year preceding.

Of the total area sown it appears from the reports that a fraction more than 23 per cent is such that the ground will be devoted to other crops, principally oats and corn. Deducting this 23 per cent, which is principally in the south central and western counties, leaves, in round numbers, 5,330,000 acres that will be allowed to stand, on which the condition averages 78.54 per cent, as compared with the customary 100 taken to represent a good average stand and satisfactory condition. The April condition a year ago was 76.

## STATE AIDS HIGH SCHOOLS

Normal Training and Industrial Courses Gets 49 of Them \$750 Each.

Topeka, Kan., April 27.—One hundred Kansas high schools were granted state aid by the state board of education for their normal training, agricultural and domestic science courses. Forty-one schools received aid for normal training courses alone for the following year which means that each school will receive \$500 of state funds. Fifty-nine schools received state aid for both normal training and industrial training courses which gives each of them \$750 of the state's money for the next year.

President May Visit Sedalia.

Washington, April 27.—President Taft has promised tentatively that he will attend the Missouri State Fair at Sedalia early next October. The president said that he would be at Atchison, Kan., about the time the Missouri State Fair opens, and that he probably would be able to attend.

## THE PROGRESSIVES ARE MAD

THEY ARE REFUSED PLACES ON SENATE COMMITTEES.

They Claim That With 13 Members They Are Entitled to One-Fourth of all Assignments.

Washington, April 27.—Progressive Republicans in the senate of the United States are breathing defiance to the regulars who ran the steam roller over them in the party caucus and kept LaFollette off the committee on interstate commerce; Mr. Cummins off finance and Mr. Bristow off of the foreign relations.

The progressive senators accomplished only two things in the fight for committee assignments, so far as results show on the surface. They succeeded in placing Senator Bournon on the committee on appropriations, and they forced the regulars to take Senator Lorimer off the committee on interstate commerce. Lorimer was placed on the committee on the District of Columbia.

Senator LaFollette wanted a place on the interstate commerce committee. The progressives urged that his work in railroad regulation as governor of Wisconsin, and his extensive acquaintance with the subject on that account entitled him to a place on that committee.

Mr. Cummins magnanimously eliminated himself and moved that Mr. Bristow be put on finance but that was voted down in caucus by a vote of 32 to 11. By a vote of 31 to 12 a motion to give Mr. LaFollette a place on interstate commerce likewise was rejected.

The insurgent leaders held a session to determine a course of action. It is understood that Mr. LaFollette will make a short speech that will put into the record the attitude of the progressives on the question of the organization of the senate. Mr. LaFollette asserts that the progressives have been unfairly and unjustly treated. With 13 members of the senate they claim title to one-fourth of all committee places.

## A GUARANTY FUND MUDDLE

Oklahoma State Bankers Association Find Record Incomplete and Inaccurate Up to March 1910.

Guthrie, Ok., April 27.—The report of the condition of the bank guarantee deposit fund made to the State Bankers' association of Oklahoma by firm of public accountants of Kansas City, Mo., became public. The report covers all transactions involving the fund from the time the law went into effect in March, 1908, until January 30, 1911. It was printed under the direction of the State Bankers' association and a letter from the association accompanying the report says the duty of making a report on the guarantee fund's condition devolved upon the officers of the association, "after waiting for more than three years for the state officials to make a full, complete and comprehensive report to the state bankers without avail."

A preface to the report, signed by the auditing company, says: "Our examination contemplated complete audit of affairs of each bank which failed or has required assistance, but such audit has not been possible. In the case of the Columbia Bank and Trust company, which failed in Oklahoma City, September 29, 1909, certain absolutely essential records have disappeared. "Apart from individual banks, the records of the banking board are incomplete and inaccurate from time of organization until the last few months. We have found no intelligible records prior to March, 1910."

## DUTCH HAULED DOWN OUR FLAG

But It Was On a Worthless Island and it is Understood Uncle Sam Does Not Care.

Manila, April 27.—Delayed advices received here by way of the island of Jolo report that the Dutch have taken possession of Palmas Island, 60 miles southeast of Mindanao, lowered the American colors and substituted therefor the flag of Holland.

It is understood here that Washington does not intend to protest against the action of the Dutch, the American government regarding the island as valueless.

## STANDARDIZE KANSAS COLLEGES

Graduates From the 13 Accredited Schools Will be Entitled to Life Certificates.

Topeka, April 27.—Thirty-five representatives of the accredited colleges of Kansas attended the meeting in the office of E. T. Fairchild, state superintendent. The meeting was called by Superintendent Fairchild to get the schools together upon a standard for all. Hereafter the accredited colleges of the state, 13 in number, will have a common standard and graduates from all of them will be eligible to teachers' life certificates.

## War Department to Have Aerodrome.

Washington, April 27.—Negotiations are about completed for the lease of grounds near Washington by the war department for use as an aerodrome. The department is arranging to buy several aeroplanes.

## AN ENGLISH PAPER'S VIEW

PRESIDENT TAFT'S ARBITRATION PROPOSITION DENOUNCED.

The London Post Accuses Our Government of Being Hostile and Trying to Disrupt the Empire.

London, April 27.—The Morning Post, always suspicious and often hostile toward America, fulminates against the proposed arbitration treaty between Great Britain and the United States and, "on behalf of those who have perceived the inwardness of the situation," protests against the forthcoming meeting at the Guild hall, at which Premier Asquith, Mr. Balfour, the Archbishop of Canterbury and others among England's most prominent men have promised to attend. The paper urges all patriotic citizens to remain away.

The editorial says the outburst of enthusiasm here for Sir Edward Grey's acceptance of President Taft's offer was due solely to the fact that original proposal was for the arbitration of all disputes without reservation, but that since then Mr. Taft has exempted a large class of questions and has recognized the right of the senate of the United States to decide whether any dispute is arbitrable. The Guild hall meeting, therefore, it asserts, is taking place under false pretenses.

Another of the Post's reasons for its attitude is that "This offer was made by a government whose hostility towards this country has since become manifest."

"It is now clear," continues the editorial, "that, at the time President Taft was offering unrestricted arbitration, he was doing his utmost to disrupt the British empire."
