DOES NOT WANT BILL AMENDED

John Norris Says It Will Be Fatal To Reciprocity.

Washington, May 24.—John Norris, representing the American newspaper publishers' association, was again before the senate finance committee in advocacy of the Canadian reciprocity bill today. Mr. Norris declared that the Root amendment to the bill, providing the paper clause of the measure should not be in force until the president proclaims that wood, wood pulp and paper, are admitted from all parts of Canada free of duty, would postpone indefinitely the date of application of the treaty.

"That was what it was intended to do," remarked Senator Stone.

Mr. Norris claimed that the amendment was inconsistent with the purpose of the agreement.

As a result of the high prices charged by the International Paper company, Mr. Norris said that the largest user of news print paper in this country would have to pay during the coming year \$700,000 more for his paper than for several years past and another publisher about \$500,000 a year more.

The present tariff, he declared, allowed the paper-makers of the United States to maintain high prices and keep Canadian paper out.

Alonzo Aldrich of Beloit, Wis., a manufacturer of paper machinery, opposed the bill. The committee then adjourned until tomorrow.

Pineapple and Raspberry ice at the Candy Kitchen. Only 15 cents per pint; 25 cents a quart.
