MAKES HIGH DIVE FROM BRIDGE

Omaha Man Takes Eighty Foot Plunge Into Missouri.

Omaha, Neb., May 24.—Oscar Holmes walked part way out on the Douglass street bridge, calmly lighted a cigarette and jumped over the rail into the Missouri river yesterday afternoon. Relatives said it was an attempt to take his life. Holmes was pulled from the river. He disclaimed suicidal intent.

No sooner had the spray caused by his eighty-foot plunge settled than persons on the bank saw the man struggling to save himself. He swam a few feet toward the shore, then, turning over on his back, he floated with the stream.

Men on the shore, who were following the man down the river, heard him shout for help. Fred Kim, an employe at the city garbage plant, put out after Holmes in a skiff, rescuing him after Holmes had sunk for the first time from exhaustion, a mile from the place where he had made his spectacular leap.

Relatives who appeared at police headquarters declared that he had been despondent because of domestic troubles.

Holmes had been living with his mother, Mrs. C. Blackson 1818 Grace street, for the last week. An effort had been made to effect a reconciliation with his wife. It failed, the relatives said, and she returned to their home in David City, Neb.

Broken Bow, Neb., May 24.—The nine-year-old son of Mr. and Mrs. James Sloggett a few weeks ago took a revolver to school, shot at the teacher, and later was found with a stick of dynamite near school. It is believed his intention was to try to blow up the building. He hid in a warehouse of a local grocery firm recently and threatened to knife the clerk who ordered him out. Sunday morning he broke into a local store, took some tobacco and candy. Clerks, who were in the store at the time hidden, took him to his father, who promises to send the boy to the reform school.

HUNTERS MAKE A MISTAKE

Shot at a Can of Nitro-Glycerine Which They Thought Was Muddy Water.

Mukogee Okl., May 22.—Clarence Henderson, bookkeeper in a bank at Beggs, Ok., is dead and Edward Bright, son of a prominent real estate man of the same place will die as the result of mistaking a quart can of nitro-glycerine for muddy water.

The young men were hunting today when they discovered the can of explosive under a boulder. They placed it on top of the rock and one of them fired into it with a .22 calibre rifle. Henderson was so badly mangled by the resulting explosion that he died within an hour. Bright's body was cut in more than a hundred places by particles of the can and of the rock on which it stood.

He crawled to a farm house a mile away and told of the accident. A physician picked thirty-five pieces of tin from his body and located sixty-five more which were too deeply embedded to be reached. There is no hope for his recovery.

The accident occurred in the oil fields and the nitro-glycerine had been hidden by well shooters when they quit work last night.

LA FOLLETTE WANTS LORIMER OUSTED

Martin Introduces Resolution of Inquiry In Senate.

Washington, May 23.—The "Lorimer case" again was to the fore in the senate today. A resolution of inquiry offered by Senator Martin, the democratic leader, intended as a substitute for the La Follette and Dillingham resolutions, and a continuation of a speech by Senator La Follette furnished the features. Mr. La Follette was still speaking when the senate adjourned. He gave notice that he would continue his remarks tomorrow, when he hoped to conclude his plea for a reinvestigation of the bribery charges.

Mr. La Follette reviewed the recent proceedings of the Illinois legislature. He said he was convinced there was still more testimony to be adduced.

"The people of the country," said he, "rejected our former verdict as if by one voice. Nothing ever is settled until it is settled right. It is God's eternal justice, pulling to make things plumb."

STARVES MARKET TO HOLD PRICES

NORRIS CHARGES PAPER MAKERS WITH RESTRICTING PRODUCTION

Washington, May 23.—Charges that the American newspaper publishers' association are compelled to pay higher prices for their news print paper, because the International Paper company is in practical control of the industry in this country, were made today at the Canadian reciprocity bill hearings before the senate finance committee by John Norris, representing the American newspaper publishers' association. The paper-makers, Mr. Norris said, have made obvious efforts to restrict production and to starve the print paper market in order to maintain high prices at an agreed figure, have sold paper abroad cheaper than in this country and have arrayed themselves against open prices and against public quotations.

In an effort to prevent such secret fixing of prices, Mr. Norris said he had made offers to buy paper and to pay cash for it, but that only two mills out of fifty in this country had sold to him. The reason for this refusal, he claimed, was that the paper-makers did not want a public quotation of their prices as he would have sold the paper at auction, thus making the prices public.

FALLS CITY 4 NEBRASKA CITY 3

From Wednesday's Daily.
The Nebraska City team met the Falls City baseball boys on the local diamond yesterday. The day previous the rain stopped the game but yesterday the weather was ideal and a fair sized crowd gathered to witness the game. Nebraska City has a fine bunch of players and the rooters were enthusiastic from start to finish. The score stood 1 to 1 until the ninth inning when both teams scored twice making the score 3 to 3 until the last half of the 10th when Falls City scored one, winning the game.

As usual in the national game, when things don't go to suit, the umpire is roasted and so on. The game was an exceptionally good one and no one was heard to say, "It's a shame to take the money," for it was real ball playing.

Nebraska City plays here today, and our boys will then go to Shenandoah for Thursday, Friday and Saturday. The following are the scores by innings of the games played yesterday:

0-0-0-0-0-0-0-1-2-1-4
