Buy Casco Butter

Of course not all Cass county people eat Casco Butter. If they did, our production could be increased greatly and Cass county farmers and dairy men would reap the advantage of a better home market for their Cream. Additional home people would be given employment and we would all benefit more than thru using butter made elsewhere, or worse still the use of oil substitutes that contribute not one penny to either Nebraska agriculture or industry. Let's keep our white spot white.
