A free lunch was one of the features of the show. Much valuable information was received by those attending on modern-day farming methods.

Rural calls receive the same prompt attention as calls closer in Porter Funeral Home, Nebraska City.

Cass county has no bonded indebtedness, as, like the state, we have paid cash for our hard surfaced roads and other improvements as we went.

Weeping Water

Frank Domingo is having a chicken house built at the farm west of town which he recently acquired, which is adding much to the convenience of the raising of chickens.

Have Two Fine Windows

The Marshall shoe store presents a very inviting scene in the windows since Nissley Marshal has dressed them with a Christmas tree and lawn line one, and an inviting fireplace in the other for Santa Claus to pay a visit. On the interior also the decorations are in keeping with the season.

Posting Sale Bills

Sid James of near Elmwood was in Weeping Water last Tuesday posting bills for a sale which he will hold in the near future. Mr. James getting a few more summers on his shoulders and the boys getting well through school. Mr. James concluded to rent the farm and has purchased a filling station in Elmwood which he will operate and move to Elmwood.

Folks Very Sick

Mrs. L. A. Wiseman and son James both have been very ill at their home in Weeping Water with a very severe attack of the influenza, so that they had to be cared for by nurses. It is hoped that they may soon be able to be out again. Mr. Wiseman has been home assisting in the care of the patients and Frank Finkle looking after the business during the time.

Three Score and Ten

That is the age of "Billie" Ash, having passed the milestone some weeks ago, but this does not prevent him from getting out and hustling with the corn sheller and by the way he knows how to make the old machine hum and get a crib of corn through the sheller in time that permits no waiting from the haulers. Go to it Billie, we are for you whatever years you have seen. Mr. Ash reports that the good wife who was in the hospital for some two weeks receiving treatment is now home again and enjoying much better health.

Home from Visit in South

Robert Hamel, wife and little daughter, who have been away for the past two weeks returned home last Monday evening. They spent two weeks in the south, touring portions of Texas, lower California and also in old Mexico where they experienced being out of the United States. Speaking of the difference in procedure Robert had to say that in Mexico all seemed to be beggars and all were expecting tips and generally received them from tourists from the United States. They were very agreeably surprised with the conditions there and the treatment they received.

Henry Snell Quite Poorly

Our old time friend, Henry Snell, who has been in poor health for sev-

eral weeks past and has been fighting to keep going is now compelled to go to his bed and have the services of the family physician. Henry is game when it comes to keeping going or in any other manner as to that. He has been kept to his bed but is reported slightly better. His many friends in which we join are hoping he may soon be out again and at it. Mrs. Snell is looking after the business while Mr. Snell is kept at home by his illness.

Much Wood and Much Work

David Patterson, who is a farmer near Weeping Water, has been chopping wood in the pasture of one of the farms of Troy L. Davis, and one tree in particular has challenged the resourcefulness of both Messrs. Patterson and Davis and after the monarch of the forest had been felled, a cut off the butt of the tree revealed one hundred and some odd rings, each of which signify a year of growth. Two cuts were taken from the tree and taken to the Farm Bureau office where they are on exhibition. In attempting to work this giant tree up into stovewood, after a stave length had been sawed, it could not be split so Mr. Patterson sawed off the stave length, then used the crosscut saw on it to get it into smaller pieces. Counting the calculation correct, that a circle on the body of the tree counts for a year it would seem that the tree began its task of providing wood for the coming generations somewhere in the neighborhood of the time when Lewis and Clarke made their famous historical trip up the waters of the "Big Muddy."

Will Move in Spring

Peter H. Miller was a guest of his son James Miller and family who make their home near Talmage and reports a very pleasant time and finding the family in good health and enjoying life nicely. They had a good crop of corn but only 50 acres, as the remainder of the farm was in wheat. However the corn ground yields nicely and from the fifty acres they realized 2,000 bushels of corn, or forty bushels to the acre. Mr. James Miller and family will move during the winter to near Douglas where they have secured a 200 acre farm.

Arrived at Coast Friday

Mrs. Earl Oldham, who departed with her son, Randall Oldham and wife for the west where she is visiting with her other son, Denziel and wife, enjoyed the trip out and as well had the opportunity of visiting a number of noted places on the trip, one the Zion national park where they stopped over night and the following day, but still they made the trip out in some forty-odd hours. Mrs. Oldham had thought to return with her other son, Denziel Oldham and wife, but he could not get off work at this time. So Mrs. Oldham will return via train or bus after a visit for a time.

Lions Club Visits Louisville

The newly organized Lions club of Louisville after having the preliminary work cared for, held their what is called "Charter Night" Monday night of this week with a most interesting program with Dr. Miller of Kimball as the guest speaker. Some sixteen members of the Lions club of Weeping Water were over to enjoy the sociability and good eats. Among those attending from Weeping Water were Mr. and Mrs. C. H. Gibson, G. R. Binger and wife, Oscar C. Hinds, Mr. and Mrs. Francis Hibbard, Dr. and Mrs. L. N. Kunkel, Harold Bauer and wife, Mr. and Mrs. Clair Wolfe and Mr. and Mrs. Richmond P. Hobson and Mrs. Joan Carter.

Has Nicely Decorated Store

We stepped into the Shraugher Pharmacy as we were making the rounds and were slightly surprised as it presented a real view of Fairland with the decorations which had been tastefully arranged. While all over business men have been complaining of a quiet pre-Christmas trade, it would seem that merchants everywhere are prepared for the rush when it shall mature.

Visited Friends Here

Miss Catherine Wolters, now of Baltimore, Md., has been visiting in Weeping Water for several days past with friends, arriving last Monday. Miss Wolters is engaged with the Social Security board of Baltimore and has been with the work there for the past three years. Miss Wolters formerly was instructor in the Weeping Water schools, coming here from her former home at Ohio where her parents now reside. She went from here to visit with them before returning to the east.

Marked Saving Thru Refunding of Bond Issue

New Interest Rate of 2 1/4% Lowest in City's History and Just Half What Bonds Now Draw

In accepting a 90 day option offer of Greenway & Co. to effect the refunding of a \$45,000.00 issue of city bonds at 2 1/4 per cent par, the city will effect a marked saving in interest on these bonds, now drawing 4 1/2 per cent or just double the proposed new rate.

These bonds were issued July 1, 1935, as warrant conversion securities, on a twenty year maturity, optional after five years basis, and become eligible for the refunding on July 1, 1940, and interest paying dates thereafter.

At the time of their issuance the bond market warranted a better rate, but past performance record of the city in meeting bond payments on due dates caused exaction of the higher interest charge. The sale was attended by many bond buyers, but the best bid offered was the 4 1/2 per cent rate, and for five years they have drawn interest at the rate of \$2,025 a year, while under the proposed refunding deal, if consummated, the interest will be cut in half, or \$1,012.50 per year.

Maturities Moved Up

Instead of waiting till 1955 to pay off the \$45,000.00 in a lump sum, as now provided, the refunding issue contemplates serial payments as follows:

\$ 4,000.00	July 1, 1943
4,000.00	July 1, 1944
4,000.00	July 1, 1945
4,000.00	July 1, 1946
10,000.00	July 1, 1947
10,000.00	July 1, 1948
9,000.00	July 1, 1949

If these bonds are issued as contemplated, the city's \$204,000 bond indebtedness at the close of the present fiscal year next May 1, would mature by fiscal years as follows:

1940-41	\$ 6,000.00
1941-42	40,000.00
1942-43	13,000.00
1943-44	12,000.00
1944-45	12,000.00
1945-46	12,000.00
1946-47	12,000.00
1947-48	10,000.00
1948-49	10,000.00
1949-50	9,000.00
1957-58	68,000.00

Payments provided for all of the years enumerated except 1941-42 and 1957-58 are slightly less than the average yearly reductions made the past six or seven years, and with the steadily declining interest rates may be met without putting any undue burden on the taxpayers, city officials believe.

The 1941-42 amount of \$40,000.00 includes \$39,000.00 final maturity of an original issue of \$96,000.00 serial bonds, dated January 1, 1922, payable \$3,000.00 a year for nineteen years and \$39,000.00 the final year. This issue is drawing interest at the rate of 5 1/2 per cent—top rate on any city bonds—and is non-optional. At least a part of the \$39,000.00 will have to be refunded when it becomes due January 1, 1942, but with only \$6,000.00 coming due the preceding year and \$1,000.00 otherwise during that year, it should be possible to pay off around \$15,000.00 and refund the balance of \$24,000.00.

The \$68,000.00 maturity during the 1957-58 fiscal year, represents a refunding issue of 20 year bonds, dated August 1, 1926, drawing interest at the rate of 4 per cent. These bonds contain an optional clause, however, that will permit refunding at any time after August 1, 1941 if the market at that time warrants, the same as the present \$45,000.00 are being refunded.

If maturities are met as outlined above (and there is every reason to believe they can be) the outstanding bond debt of the city after August 1, 1949, should not exceed \$92,000—confined to the \$68,000 refundables and the \$24,000 refunded portion of 1941-42 maturities.

Reduction of \$13,000 Yearly

The bond and warrant indebtedness of the city on February 18, 1931, amounted to \$326,826.41 and if the program that has been set up by the finance committee and outlined above is carried out, the net reduction in city indebtedness over the eighteen year period will amount to the sum of \$234,826.41—an average of slightly over \$13,000.00 a year that the city will be pulling itself out of debt.

Every possible opportunity to effect a saving in interest rates has been taken advantage of, as evidenced by last night's vote of the council to refund as soon as available the \$45,000.00 issue that has been drawing 4 1/2 per cent and after July 1 will draw but 2 1/4 per cent.

AGRICULTURAL CONSERVATION PROGRAM

Because of the large number of corn loan applications, the county committee felt that it would be necessary to appoint two additional corn loan sealers in order to facilitate the handling of corn loans in order to get the loan money in the hands of the farmers as rapidly as possible. The county committee announced the appointment of Cash L. Wiles, chairman of Plattsmouth precinct to take care of the northeast corner of Cass county and John E. Lambert, chairman of Salt Creek precinct to take care of the northwest corner of Cass county. The cost of sealing 1939 corn is one cent per bushel with no maximum or minimum charge. Insurance on the sealed corn must be obtained the same as in the past at a cost of approximately forty cents per hundred dollars. Also all delinquent personal taxes must be taken care of before loans can be completed.

The community committees have just completed determining the usual corn and soil depleting history for each farm in the county, and allotments will be in the hands of the farmers shortly after January 1st 1940. The applications for the 1939 agricultural conservation payments for Cass county are being sent out for signatures as rapidly as possible. We anticipate the conservation money will be in the county shortly after the first of the year.
