

Council Discuss Sewer Work on Chicago Avenue

Near Completion Causes Moves to Try and Extend Sewer on West Side to Protect Pavement.

From Wednesday's Daily—The city council with Mayor George Lushinsky present set a record for swift and efficient work last evening when the regular ses-

sion occupied some thirty-five minutes. The meeting started promptly at 7:30 with all of the councilmen on hand with the exception of Webb of the first ward who arrived later. Mayor Lushinsky for the board of health stated that there were many cases of flu and colds over the city but nothing of a contagious matter reported by the local physicians.

Police Judge C. L. Graves reported for the week of December 14, one arrest and fines and costs of \$9.25, while for the week of December 21st there had been three arrests and fines and costs of \$49.75.

Chairman Vroman of the lighting committee reported that all of the city lights were reported in service.

Mayor Lushinsky discussed at some length the Chicago avenue sewer project and which at this time has 109 men employed. The sewer is now practically completed with only twenty feet to bring the sewer to the end on south Chicago avenue and where it will be joined to the old rock sewer that crosses the avenue. There is still some work on the top of the new sewer and fills to be made along the line of the completed sewer. The mayor stated that the state depart-

ment of highways had not given very favorable reply on the matter of co-operation with the city in extending the sewer south on the west side of the highway when the present sewer is completed. The state had desired that the city waive all liability on the part of the state and assume all of the risk of the construction and the crossing of the avenue without stopping of traffic.

In regard to the resurfacing of the Granite street viaduct, Mayor Lushinsky stated that the state had not been able to help on this work which is located on highway No. 34, but later when working in this section might be able to give some aid on the resurfacing.

Councilman Gabelman, chairman of the streets, alleys and bridges committee reported that the street force was working only a part of the time but would be out to help clean crossings during the heavy snow period.

It was suggested that in the event that the Chicago avenue sewer was not extended further that a part of the material might be used on starting an extension on Washington avenue.

The following claims were ordered paid by the council:

- Dog Tax Fund
- J. H. Boetel, burying 1 dog. \$.60
- Business Tax Fund

ASKS REVERSAL OF JUDGMENT

Harold Hart, former manager of the Hinky-Dinky store at Nebraska City, well known in Plattsmouth, asked reversal Tuesday at the hands of the supreme court of the compensation and district courts in their denial of his claim for workmen compensation. The store is operated by the American Community Stores. He says that he was permanently disabled on the 19th day of February, 1938, slipping on a loose lettuce leaf lying on the floor while he was carrying a heavy crate of goods. He says he is getting \$37.50 a week, and is entitled to \$15 a week compensation.

The company denied that he was injured in the course of his employment.
