## Soufflés are Easy

says Dorothy Greig

FOR some reason the ordinary, everyday variety of cook is inclined to back away from soufflés as something rare and difficult to achieve. That's all "stuff and nonsense" as mother would say. It's not the making that's difficult. It's rounding up the members of the family and having them right there to eat it, the minute the soufflé

leaves the oven. Soufflés are not for the dillydallier. They're for Johnny-on-the-spot. The recipe given here results in a soufflé that pulls up and up most proudly. Its sharply delicate cheese flavor wins it favor with men. And served with green salad and crusty rolls for luncheon or supper, it's a treat for anyone.

### Tomato-Cheese Soufflé

- 2 tablespoons butter
- 2 tablespoons flour
- 1/2 cup milk
- 1/2 cup condensed tomato soup
- 1/2 cup grated cheese
- 1/2 teaspoon dry mustard
- 4 eggs, separated

Melt the butter, add flour and cook until frothy. Then add the hot milk and cook until thoroughly thickened. Stir in the condensed tomato soup and the grated cheese and heat until the cheese is melted. Remove from fire and add the mustard and egg yolks—adding one egg yolk at a time and beating thoroughly after the addition of each egg yolk. Beat the egg whites until stiff, but not dry, and fold them into the mixture. Pour into a well-greased "casserole and bake in a moderate (350 degrees) oven 50-60 minutes or until firm in the center. Serves 5-6. (Put in pan of hot water while baking.)

striking contrast to the surrounding buildings which are time stained and weather worn, enhancing the beauty of the new structure. The new floor in the auditorium, which has just been completed makes an excellent place for all the celebration which it will house. As the building is not yet completed we will have to await until it is finished in order to give a true description of the excellent home of the fair association. Ray Erickson of Omaha has had charge of the laying and finishing of the floor.

Kovdahl make their home on a farm near Harrison, Nebraska. They also have a son, four years of age named Terry, who had in some manner suffered a fractured collar bone and with the two children in their auto Mr. and Mrs. Kovdahl were hastening to Lusk, Wyo., to get treatment for little Terry, and were traveling at a high rate of speed, estimated at 60 miles an hour, when the rear door of the auto flew open and the little daughter, Coral Ann fell out and rolled some sixty feet. In the rolling the hair was torn from her head and there were cuts and bruises all over her body. The little one was picked up tenderly and wrapped in a quilt and the folks then hastened to Lusk, Wyo., where she was cared for and made as comfortable as possible, although no effort was made to set any fractures. Terry, however was cared for and is reported as getting along nicely. The condition of Coral Ann is not known as no word has been received since Friday of last week. The grandparents are hoping against hope that the little one may come out of the injury. However it seems it would be almost a miracle if she did recover.

Painted New Pump House

A three way pump has been installed and when water in the creek is clear it will be pumped direct to the supply tank. At other times it can be pumped into the settling basin and then from there to the tank—thus providing much better water for use in the locomotives.
