### Expects to Move Here.

Attorney Paul E. Fauquet, who recently moved to Weeping Water to establish himself in business as a practicing attorney, occupying the suite of rooms formerly occupied by

the late Clarence E. Tefft, has been endeavoring to secure a residence, but there seems to be a dearth of rental properties suitable. ### WEeping WATER FOLKS ATTEND CHURCH RALLY

Special Correspondence  
WEeping WATER, July 15—Rev. and Mrs. W. D. Lenker, Miss Lina Lineback, Mrs. John Heebner and Mrs. Thomas Murtey attended the rally of the M. E. churches of the Beatrice and Omaha districts which was held at Coryell Park, near Brock, Sunday evening.

It was an out of door meeting with the audience filling all the seats which had been provided, and many seated on the ground, while others were seated in cars parked at the edge of the lawn. All faced the chapel and the speaker, who stood in front of the fountain. A large loud speaker carried the program to all parts of the park.

Rev. Harry Huntington presided and the meeting was opened with the singing of familiar old tunes, which was followed by a double quartet from Peru, who sang "Day is Dying in the West," after which a contribution was taken for European sufferers. Bishop William C. Martin delivered the address of the evening, which was followed closely by the audience of several hundred people. At its close Rev. Huntington asked that those in their cars join the congregation and all join hands while singing "God be with You till We Meet Again." It was an inspiring sight to see the circle of people extending up the hillside toward the chapel, with a bright moon shining over their heads, and hear the voices lifted in that grand song.

### Realizing Good Harvest

J. J. Pollard, operator of the Nehawka elevator, has been very busy recently looking after the grain that is being brought to the elevator each day. With the wheat yield far exceeding expectations, the amount of grain to be handled keeps the force at the elevator busy long hours. A good portion of the crop has been cut and shocked and will be threshed later, thus providing a steady in-pouring for some time to come. Incidentally, the sale of the grain that has been marketed to date, has brought a good volume of money into the hands of the sellers.
