**Togger's Lay-Away Plan is Most Popular**

Affords Opportunity to Select Your Coat Now and Have It Paid for by Time Needed

The Lay-Away Coat Sale at the Ladies Togger is being continued during the month of September, affording women of the community opportunity to visit the store and pick out their winter coat now while the selection of new fall styles is complete, paying as little as \$1 down on any model chosen. The selection will be put in "lay-away" and the purchaser can pay the balance in easy payments. Then when winter comes, you will be set and not have to worry about making last-minute selection from depleted stocks or getting the money to pay for your coat.

Scores of women have found the Togger's lay-away plan a most satisfactory way of buying.

Ladies, when you shop for a coat, do you ask the price before trying the coat on? The Ladies Togger has a big surprise for you if you don't ask the price first.  
Come in and try on the new Betty Rose coats. Don't peek at the price tag but stand before a mirror and look at yourself from every angle, then take off the coat and examine the parts that the mirror doesn't show—but which are most important in assuring you long and satisfactory wear. The taping at points of strain, the roomy armholes, the double blind stitching and countless other features that assure extra wear from the coat.

By this time you will probably be wishing that you had never tried on the coat. You'll be thinking that such smartness and tailoring take it clear out of your price range. But the Ladies Togger has a pleasant surprise for you when you ask "How much?"

You'll really be amazed how little genuine BETTY ROSE coats cost. Read the thrilling story of BETTY ROSE COATS in Mademoiselle. They are truly America's outstanding coat, and best of all, are priced within the reach of ordinary folks who count the cost.

Some time ago an ingrown hair on his arm was pulled out with tweezers by his sister. Following the act the arm began to swell fast and he was rushed to the hospital about two weeks ago. The mother had been in Iowa to see the son and returned a short time ago with the satisfaction that the arm would be saved. A sudden turn for the worse developed, which necessitated in the amputation of the arm. The son is twenty-five years old.
