FOR PASTURES AND HAY

Soil and moisture conditions are now ideal for seeding. This should be done around Sept. 15 and not later than Oct. 1! My Brome Seed (just threshed) will pay you big dividends in Pasture and Hay if sown during the next two to three weeks!

HOW TO SOW BROME

By ED CLARK, Arthur, Iowa ask me how to sow Brome Grass. I take an endgate seeder and open the oat hopper up as wide as I can open if. have someone drive for me and take a dipper and drop the seed in the seeder as fast as it takes to sow 15 pounds to the acre. I drive about 18 feet apart. That is as far as the seeder will sow and you will get a good stand. Took me three years to learn how to sow it. . . . I have 120 acres and have a good stand. It will pasture two head to the acre or cut two or three tons of hay to the acre. It's the earliest grass in the spring and the latest in the fall."

Price \$10 per hundred. Special Prices for 300 ibs. or Over-See or Phone
