

Letter Tells of Nazi Bombings Over England

Callaway Newspaper Contains an Uncensored Account of English People's Reaction

Charles and Fred Ransley, of Wemby, England, have written a letter to their brother, W. T. Ransley, of Callaway, part of which was published in the Callaway newspaper, being as follows:
"... Yes, as you say, we are living in the most anxious times. At the present moment we are on the alert and ready for the beastly enemy to strike. Our preparedness is thorough—we are leaving nothing to chance this time. We have learned our lesson from the countries that have been so shamefully betrayed from within.
"The lads in all the forces are grand, especially the air force. We cannot speak too highly of them. Their usual bag of enemy planes is recognized as five to one and the other day during an air battle over the channel they brought down 70 enemy to our 16 loss...

Wallace Says Farmer in Danger if GOP Victory

Democratic Vice-Presidential Candidate at Shenandoah, Iowa, Tells of Aid to Farmers.

SHENANDOAH, Ia., Sept. 25 (UP)—Henry A. Wallace, democratic vice-presidential nominee, told an Iowa farm audience today that if the republicans win in November the "death knell of fair play for the farmer" will be sounded.
Wallace selected as his particular target Representative Joseph Martin, R., Mass., and said the republican minority leader in the house "has not voted for one vital and constructive farm law."
"By his fruits ye shall know him," Wallace said.
He said that "for twelve years—twelve disheartening years—you hung on grimly hoping against hope for a turn of the tide of your fortunes. And then in 1932 there was a voice of cheer—the voice of Franklin D. Roosevelt and so twelve disheartening years were followed by eight years of progress."
The "milestones" which he said marked those eight years, were:
"1933—The recognition of farm equality in the first Agricultural Adjustment Act.
"1934—Decisive and effective action to meet the calamity of drought.
"1935—The beginning of the rural electrification program.
"1936—The Hoosak Mills decision of the supreme court and the farmer's answer: 'Soil Conservation to reclaim the nation's fundamental resources.'
"1937—A permanent marketing agreement program for the producers of milk and special crops.
"1938—The second Agricultural Adjustment Act with parity payments and an ever-normal granary.
"1939—Launching of a food stamp plan.
"1940—A vital role for agriculture in the nation's program of defense. We had piled up in the ever-normal granary the surpluses necessary to meet any drought or any defense need and at the same time had prevented those surpluses from shattering the price structure as had happened in 1932."
