## Delegations Here to Place Before Commissioners Petitions for Road Improvement.

From Tuesday's Daily— This morning two delegations were here from the vicinity of Union seeking to have two very much traveled roads in that locality rocked, the groups seeking to have the surfacing carried out with the co-operation of the residents and the county.

One of the roads sought is that running straight east from Union to the Missouri river and which serves a large territory. The extension of surfaced road is three and a half miles. The delegation seeking the road comprised Oliver Schieber, James Niday, Roy Dye, Earl Hathaway, the Dye.

The second delegation was one that seeks to have the road rocked down through the Setota bottom and which will also benefit a large number of the farmers. The petitioners for this road were David Eaton, John Everett, Roy Hathaway, Donald McQuinn, Francis Leiter, Joe Banning, Tom McQuinn.

The road proposition was presented to the commissioners who will investigate the matter. They deferred action until a later date.

### TO HOLD CONFERENCE

The initial meeting of the members of the Federal Regional Advisory Council to outline plans for coordination of health, welfare, and related defense activities will be held in Minneapolis on Friday, March 7, announced Fred M. Wilcox, regional defense coordinator.

"Immediate objective of the program," said Mr. Wilcox, "is to build up and safeguard the civilian health and welfare necessary to bulwark military defense. The five subjects with which this program deals are: Health and medical care, welfare, nutrition, education, and recreation at army camps and in cities where new defense industries have created health and recreational problems too great for municipalities to handle."

The Federal Regional Advisory Council is one link in a nation-wide organization headed by Paul V. McNutt and is unique in that the employees number less than 50; Mr. McNutt has no money to allocate; expects no big appropriations, and he has no broad executive authority. The organization is utilizing existing federal, state, and local agencies in its important task.

# Myrna Loy to Give Matrimony Another Tryout

## Movie Star and Husband, Arthur Hornblow, Jr., Are Living Together Again.

HOLLYWOOD, March 5 (UP)—Myrna Loy, "perfect wife" of the films, has decided to give real matrimony another trial. She said today that she and Producer Arthur Hornblow, Jr., were living together again, after a separation of four months.

"We have discovered that our action was hasty," said the freckled Miss Loy. "We know now that it was a mistake and that we are happier together."

She announced last November that they had separated, having tried for a year to make a success of marriage and failed to "find happiness for us both."

She even instructed her attorney to start divorce proceedings "at an early date."

Both said, "there is hope of a reconciliation;" they could not "adjust the inescapable complications of our careers."

Hornblow spoke endearingly of her as "the loveliest woman in the world."

Nevertheless, they were soon seen together at movie previews and night clubs, and told their friends that they were living in the same house again.

They were married at Ensenada, Mex., on June 27, 1936, after a courtship of three years.

James Price, 18, of Lincoln, who plays the viola.

Hartman and Neustrom were two of seven representatives who went to the 1940 All-American Youth Orchestra auditions in Kansas City. Auditions to select Nebraska's representatives were held in Lincoln February 22, and in Kearney March 1. Fourteen youths between the ages of 18 and 25 tried out at Lincoln, and five tried out at Kearney.

NEW YORK, March 4 (UP)—Police said today that George Joseph Cvik, 23, confessed that he roamed the country raping housewives who admitted him to their homes while their husbands were at work, and that he strangled Mrs. Papas, 29, a Sunday school teacher in her apartment here Feb. 4.

He denied that he strangled Mrs. Elizabeth Jensen, 34, in her apartment a mile and a half from the Papas apartment yesterday afternoon, but admitted, according to District Attorney Samuel J. Foley of the Bronx, that he had assaulted other women here, in Washington, D. C., Philadelphia, Newark, N. J., and in other cities. He had denied for several hours that he killed Mrs. Papas and was still under questioning.

### ONE TYPE SHOE IN ARMY SEEN AS INADEQUATE

OMAHA, Neb. (UP)—Men in the army service whose physical troubles start with "foot disorders" may find relief if a "bunion brigade" proposed by the Midwest Association of Chiropodists swings into action.

"One standard shoe for the many different types of feet in the army is the prime cause of many foot disorders," declared Dr. William J. Stieckel, Chicago, association president and dean of the Illinois College of Chiropody and Foot Surgery.

"These young men have been wearing different type shoes in civilian life and then they are made to wear only one type," he asserted.

A chiropody corps attached to the army is as vital to the fighting forces as the medical and dental corps, declared Dr. Stieckel. Flat feet—once a good reason for military exemption—can be cured, he said.

The association which convened here chose Cedar Rapids, Ia., as the 1942 convention site.

### "ONE EYE" ON VACATION

WICHITA, Kansas, March 3 (UP)—The world's No. 1 gate crasher sold out to the "interests" today.

One-Eye Connolly, who claims to have crashed more gates than any other individual, signed a contract with officials of the national semi-pro baseball tournament to act as head gate-keeper. He will be in charge of all gates during next summer's tourney and will be on the pass gate "in person."

"I know the guys who try to get in on passes—they're plenty tough, but they aren't real gate crashers," Connolly said. "I'm going to crack down on them."

The 65-year-old Connolly said his defection was a "vacation."

### KINGSLEY LAKE IN MAKING

OGALLALA, Neb., March 3 (UP)—The Kingsley lake is in the making.

Behind the rip-rapped upstream side of gigantic Kingsley dam North Platte river water has spread across the two-mile-wide valley. For almost five miles upstream water has overflowed the natural course of the river and is creeping across low-lying meadows.

The rise of the water is slow—im-perceptible to the eye.

"It has taken us five years to construct the dam but its reality has only begun to take hold of the minds of the people in the three weeks we have been storing water," E. J. Mecke, assistant resident engineer for Tri-County, said.
