# COLUMBIAN Automat HOG FEEDER

Here's the practical, feed-saving hog feeder you have been wanting. Feeds hogs just right for maximum gains—and saves you money on feed every day.

The Columbian Automat has straight sides-cattle cannot step on it and ruin it. Counter-balanced doors open inward as the hog eats; close tightly as soon as the hog withdraws his snout. No chance for chickens to crowd in. Each feed hopper is adjustable to regulate the flow of feed. Bottom of feed trough is slanted so hogs will eat it clean; no crevice or corners where stale or spoiled feed can accumulate.

A smooth split steel tube is firmly clinched and welded on trough edge—no danger of injury to hogs while eating. Feeder is mounted on wood skids with hitch clevises—easily moved about the feed lots. Built of heavily galvanized steel to last for years! COME IN and see it at once!

LIFETIME HOG TROUGH Can't be broken. Water freezing in trough will not damage it. Easily cleaned —not a crack in it. Hard to turn over. 10 in, wide; 4 in, deep; 2 feet long. Made of all-welded 16-gauge steel. Come in and See them at once! (36-A-1)

Those Products Manufactured by THE COLUMBIAN STEEL TANK CO., KARSAS CITY, MO., U. S. A. FOR SALE BY W. H. PULS, Plattsmouth
