put away from among yourselves that wicked person." If the church would begin to clean house, how many of the members would she have left? Has God put the standard too high? Is there any virtue in indulging in those things? What benefit could anyone derive by practicing these vices?

## Bible School Lesson Study!

Sunday, July 20th By L. Neitzel, Murdock, Neb.

**"The Responsibility of the Church Regarding Beverage Alcohol"**  
I Cor. 5:9-13; Titus 2:1-8.  
This lesson is an exhortation for keeping the church pure from the contamination of members living scandalously and the solemn obligation resting upon all Christians to live as becometh the Gospel of the Lord Jesus Christ. God has given, by inspired writers, a chart for personal conduct, to every member of his family, if they live up to that every body will thereby see that they are a "peculiar people." (I Pet. 2: 9).

The church at Corinth was composed of members rescued from the "cesspool of iniquity" (as Corinth was commonly called). They had lived amid such revolting, immoral and heathenish conditions, they were hard to break away from. (We find that true today, lifelong habits are hard to overcome).

It seems Paul had written this church an epistle, which got lost somewhere; even other letters got lost (See Col. 4:16); but the canon of the scriptures is complete without them.

As a temperance lesson, we are dealing especially with the life of church members and their personal conduct. Beverage alcohol comes in incidentally. In studying this lesson, we do not go outside the church. The church is the body of Christ—hence it cannot tolerate members who are living ungodly lives. As we cure or amputate diseased members in our bodies, so must the church. If an ungodly member will not yield to proper treatment, they must be removed from the church. The different prevalent sins at Corinth are here named (today we could enlarge on this catalog).

Fornication in the New Testament is the unlawful relationship of the sexes, in any intimate way, outside of the state of marriage; this was a common sin in Paul's world. To allow this sin in the church, if it is known, would contaminate the whole church, like a rotten apple in a barrel of apples. (Is the church today weeding out the bad?) No discipline is used in these days. Verse eleven names besides fornicators, the covetous, idolaters, railers, drunkards, extortioners. If there are such in the church, avoid them; do not keep company with them, "therefore

tion and with much promise of expansion and home building. The group returned home in the evening after a very pleasant visit.

**Visiting Friends Here**  
Mr. and Mrs. Frank Scoville, who have been making their home at Portland, Oregon, where Frank is engaged in railroading, arrived in Weeping Water last week and have been visiting friends and relatives here, being guests at the home of Mrs. Minta Spencer, mother of Mrs. Scoville.

Mr. and Mrs. Scoville left Weeping Water for the west in 1906, and have lived there ever since. They like the country out there very much and are boosters for their adopted state of residence. However, they still retain many pleasant remembrances of the town where they lived in the days gone by, which call for a visit with the people here every year or so. They expect to remain another week before returning to their home in the west.

**Rebekah Installation**  
The installing team of the Weeping Water Rebekah lodge were at Elmwood Tuesday of last week, at which place they installed the newly elected officers of the lodge at a joint installation ceremony in which the L. O. O. F. officers were also inducted into their respective offices.

Towle and wife, who have been making their home at Long Beach, California, during the school year, in order to be with their son, John, who has been attending college there, following the end of the school term have returned to Weeping Water, arriving here last week. They stopped at a number of places along the way to visit, and enjoyed the trip very much, with their son, John, doing the driving.

They will not remain here as long this summer as ordinarily, as urgent business will call them back to the west at an earlier date than usual.

Weeping Water is glad to welcome them back, even though their stay will be short.

The trip provided was to have been by rail and for one person only, but Mr. Peters asked that he be given that portion in cash and permitted to drive his car, for by so doing he was able to take his wife along, giving them double the enjoyment of his going alone.

**RESTAGING SET FOR DEADWOOD SHOOTIN' DAYS**

DEADWOOD, S. D. (UP)—Crooked-Nose Jack McCall, a badman of the early gold rush days, goes on trial again soon for firing a six-gun slug into the back of Wild Bill Hickok on Aug. 2, 1876.

The trial is an annual home-talent reproduction of one of the Wild West's most stirring events and serves as a buildup for Deadwood's Days of '76 celebration Aug. 7-10.

Violation of the West's No. 1 rule cost Wild Bill his life. He sat with his back to the door during a poker game in Carl Mann's No. 10 saloon on that fateful day in '76.

McCall suddenly appeared in the door and shot Wild Bill in the back. The slayer was captured and tried by a miners' court.

The court freed McCall, but a posse later ran him down and hanged him near Yankton, S. D.
