**EIGHTH ANNIVERSARY OF
THE RETURN OF LEGAL BEER**

LINCOLN, Aug. 13—Sunday was the eighth anniversary of the return of legal beer to Nebraska.
On August 10, 1933, the sale of beer was resumed after a 16-year "dry" period, under provisions of a statute passed by the 1933 legislature legalizing 3.2 beer.
This legislation was superseded in 1935 by the present Nebraska liquor control act providing for the sale of both beer and liquor and placing administration of the law under a State Liquor Control Commission.
The Nebraska Brewers and Beer Distributors' Committee, self-regulatory organization headed by Charles E. Sandall, reports that since 1933 the state of Nebraska has collected a total of \$3,545,547 in beer excise taxes. Of that amount, some \$2,641,183 has been used to help finance the state assistance program for the benefit of the needy aged, dependent children and blind. The remainder has gone to the state's general revenue fund.
Director Sandall is in charge of the committee's "clean up" activities which were initiated in Nebraska more than three years ago to improve standards of retail beer operation. Similar programs modeled after the Nebraska plan are functioning in fourteen states.

AIRPORT ASSURED

KEARNEY, Neb., Aug. 11 (UP)—The national defense airport near highway 30 five miles east of town appeared assured today.
Rep. Harry Coffey, Chadron, notified the Chamber of Commerce the project has been approved by WPA. He said only routine presidential approval now was necessary.
The project calls for construction of a 60 by 113 foot brick hangar. The field will have two hard-surface runways, one 5,050 feet and the other 4,680 feet long. The present municipal airport will be abandoned.

One additional member of the troop qualified for second class. Also the boys will receive 17 merit badges. Next regular Scout meeting will be held Monday, August 18.
