

Medical Units Urged to Fill Defense Need

Emergency Squad Setup by General Hospitals Called Vital—British Warning Cited.

By ROBERT WALLACE
CHICAGO (UP)—The nation's general hospitals have been asked to contribute to the defense effort by forming field casualty services in seaboard states and the industrial areas of the interior. It was revealed in a bulletin released by the Medical Division of the Office of Civilian Defense.

Detailed plans contained in the bulletin call for the erection of an Emergency Medical Service as a section of the local defense organizations throughout the country, working in cooperation with welfare police, and other emergency services. The plans have the approval of Fiorello H. LaGuardia, director of civilian defense.

British Warning Cited

"To those who do not as yet appreciate the need for action," LaGuardia said, "I should like to quote from a similar bulletin issued in England in 1938, just prior to the beginning of hostilities, which describes measures for safeguarding the civilian population:

"The need for these measures is not related to any belief that war is imminent. It arises from the fact that the risk of attack from the air, however remote it may be, is a risk that cannot be ignored, and because preparations to minimize the consequences of attack from the air cannot be improvised on the spur of the moment, but must be made, if they are to be effective, in time of peace."

The local medical service, the bulletin said, is to be under a director responsible to the local head of civilian defense. It will be the director's job to make inventory of the community's medical resources and facilities and to prepare local plans, develop an organization and provide for the training of personnel to carry out the functions of the service.

Size of Unit Varies

The emergency field unit, the bulletin indicated, is to be composed of two or more squads with their individual commanders and a physician commanding the entire unit. The bed capacity of the parent hospital determines the number of squads.

Personnel of the squads, depending upon their size, consists of two or more physicians, two or more nurses, and two or more orderlies. All should be instructed in first aid, including care of burns, prevention of shock, control of hemorrhage, emergency treatment of fractures and wounds, and in the technique of decontamination.

The function of the squad is to set up a casualty station at the site of a disaster where first aid treatment may be administered and the seriously injured picked up by police or fire department rescue unit for transportation to a hospital.

The bulletin recommended the establishment of the Emergency Medical Service as soon as possible and advocated monthly drills to bring the field units to maximum efficiency.

LITTLE DAMAGE TO CEMETERIES OF A. E. F. NOTED

JOHNSTOWN, Pa. (UP)—Cemeteries in France containing graves of American soldiers who died in the first World War, suffered little damage during last year's German blitzkrieg into France, it was declared here by a caretaker for the burial places.

William H. Dorsey, employed by the U. S. government, admitted before a meeting of "Forty-and-Eighters" that some damage had been done to the graveyards when the Nazis swept toward Paris, but said it was not what might have been expected.

"The damage in the cemeteries was nothing like that to the little towns through which the fighting raged," he said. "Many of them were turned into piles of stones and burned wood, completely destroyed."

Nevertheless, Dorsey said an occasional poorly-aimed aerial bomb or artillery shell would drop into a cemetery and destroy some monuments and uproot others. But he declared that these were exceptions and that very few graves were destroyed.

Dorsey returned to the United States in July, after living in France since 1922. He was stationed at Montfaucon.

RETURNS FROM OUTING

From Saturday's Daily—Miss Helen Warner, deputy clerk of the district court, was back at her post today after a very pleasant visit with relatives in Arkansas. She accompanied Mr. and Mrs. Alvadore Tilson, son, Donald and Mrs. L. F. Terryberry on the trip.

The party had a pleasant time on the journey as they stopped for a short time at the great Bagnell dam in southern Missouri, as well as traveling through the Ozark country made famous by the "Shepherd of the Hills" by Harold Bell Wright, finding this a very attractive spot at this season of the year.

The journey through Arkansas to Almyra, their destination, took them through a great deal of very interesting country and a variety of scenery from the Ozarks to the lowlands along the rivers.

They were guests of Mr. and Mrs. Charles Warner at their large cotton and rice plantation in Arkansas county, enjoying the sight of the cotton field now filled with the ripened cotton. The picking season was at hand and they found hundreds of the colored residents busy in the fields.

On the way homeward the party stopped at VanBuren, Arkansas, where they visited the home of Bob Burns, noted radio star where there are many articles of the star on display at the home.

ON WAY EAST

From Saturday's Daily—Mr. and Mrs. Edgar S. Wescott of Lincoln, were in the city today for a short time while on their way to the east coast. They are enjoying a combined business trip and vacation in New England. They will visit at Boston where Mr. Wescott will attend a convention of life insurance representatives, he being with the Bankers Life of Nebraska, at Lincoln. They will go later to the Maine high woods country for an outing and will be guests of Mr. and Mrs. Karl Koer at their home at Presque Isle. Mrs. Koer is a sister of Mrs. Wescott.

ASKS FOR DAMAGES

From Saturday's Daily—In the office of the clerk of the district court an action was filed this morning in which Marie Stoll was plaintiff and F. H. Stevens the defendant. The petition sets forth that on December 19, 1939 the plaintiff was riding in a car driven by Alex Soderland, when this car and one driven by the defendant Stevens, collided on the highway a mile west of Eagle.

For alleged injuries and damages sustained by the plaintiff the sum of \$10,359.45 is asked.

Glenwood in 19 to 0 Victory Over Platters

Heavy and Fast Rams Crush Down the Less Experienced Blue Devils in Friday Game

From Saturday's Daily—

The Glenwood Rams rolled into town yesterday afternoon and rolled over Plattsmouth's Blue Devils for three touchdowns, and 19 big points. Plattsmouth on the other hand could not get the ball past the Rams' 35-yard line, and were on the defensive most of the time. Coach Morey Baker's stalwarts from across the stream had just a little too much speed, experience, and brawny beef for the green Blue and White's.

And still with all the advantages going to Glenwood the Platters could have made a much better game of it had they possessed a willingness to fight back. The first half was a slam-bang tussle ending 6 to 0 for Glenwood. Glenwood's first score came after a 67-yard march put them on the Platter 3, first down and goal to go. The Platter line held three times before Moore's lob over the foot fooled the Blue and White completely for the first score. This was the fighting Platter eleven of the first half, that differed so much from the sluggish and demoralized Blue Devils of the second half that let the Rams run wild. Had the Platters retained their spirit the second half a different story might be told.

Sulhoff, game captain for Glenwood, won the toss, chose to defend the west goal with a slight wind to his back and Plattsmouth received. Sulhoff, who played a magnificent game at his end position, kicked off to Plattsmouth. The Blue Devils made two first downs before a had pass from center forced Larson to kick.

On their own 30-yard line the Rams uncovered Jesse Jorgenson, a gigantic fullback who ripped and tore at the Platter line. Jorgenson was to Glenwood what Yelick was to Plattsmouth when the two teams met last year. At one time during the 70-yard march down field Jorgenson was almost clear only to be brought down by the safety man. Also during this drive Jorgenson made the longest gain of the game, 32-yard sprint through the center of the Platter line. This drive after the spirited goal line stand by the Blue Devils eventually resulted in the only score of the first half.

Immediately after the score by the Rams and the try for point that failed, the Blue Devils started rolling—but only for a while. Starting from their own 25, Larson and

White combined to make three first downs, bringing the ball up to the Glenwood 42.

After White made 7 to Glenwood's 35 and with second down and only 3 to go an apparent error in selecting plays by the Plattsmouth quarter lost the ball. With the Plattsmouth ground offensive going great guns the Blue Devils tried a pass which was intercepted, and the half ended ten minutes later with Glenwood in possession of a 6 to 0 lead.

The second half was less than 5 minutes gone before Glenwood blocked and recovered a Blue Devil punt on Plattsmouth's 33. A beautiful double reverse pulled the entire Platter team out of position and enabled Jorgenson to scamper 33 yards and another score. The extra point was good and the Platter defense crumbled and their offense was stalemated.

The same double reverse that scored set up and scored another touchdown for the Rams, early in the last period. The Rams had three different plays coming out of this reverse play. The man who received the second lateral would run the end, off-tackle, or pass. It was the pass play from Curry to Jorgenson that scored the last touchdown.

Captain Bill Gayer and Dick Novak, soph guard held up the Platter line throughout. McMaken, Larson and White looked good in the backfield. Jorgenson carried the Rams on his able shoulders though he was ably abetted by Honig, Fiesleman and Curry.

They have also been in Lincoln as guests of Mr. and Mrs. George Adams, the latter a sister of Mrs. Adams. Mrs. Adams also has a brother living here, Dr. O. C. Hudson. The Adams family has lived in New York about a year.

PAVING OPPOSITE FORT

From Saturday's Daily—Paving of the east traffic lane along the west side of the Fort Crook grounds was completed nearly to the south corner late last night and will be continued on today to where it tapers into the present two lane highway just north of the Pappio overhead. The machine will then work back north on the west lane to connect with its present terminus several hundred feet north of the Gilmore crossroad. That will complete work for the big machine, which will be moved to a job near Jefferson City, Missouri.

The smaller machine was also busy until a late hour last night filling in gaps, including the Avery crossing and some wedges further to the north. Steel for the 13th street overpass is on the ground. Piling for an additional pier to support the railroad overpass into the bomber plant arrived a few days ago and the pier-driver is again at work. Steel for this is to be erected when the final pier is finished and the tracks laid. For these, 110-pound steel rails have been purchased. These are as heavy as used on any main line construction.

Work is slow getting started on the 10-foot black top shouldering to run along the outer edges of the dual twin lanes, actually providing 32 foot of surfaced roadway—22 of concrete and the 10 of blacktop to each lane.

With good weather the road may be open in two weeks.

SCHOOL DAY LUNCH

is an important meal

—it must provide energy for the afternoon

as well as something to "grow on"

by Dorothy Greig

Chicken Noodle Soup, hot and energizing, makes a stout beginning for Monday's lunch for the youngsters.

ONE thing we have certainly had brought home to us in the past several years is the necessity of providing school children with hot substantial lunches.

Served a hot lunch every day, youngsters fairly bloom. They grow bigger and stronger, faster. Little Johnny with a good hot lunch tucked under his belt is not dull and slow in his afternoon classes, but quick and bright and interested.

Hot food is the answer. Hot food that is highly nourishing, yet quick and easy to digest. All children need this type of noon day meal whether they eat it at school or at home. For instance, here are lunches for a school week that fill this need for hot food. They are simple and easy to prepare too:

Wednesday
Cream of Tomato Soup (add equal quantity of milk to condensed tomato soup)
Poached Egg on Toast
Mixed Fruit Salad Milk

Thursday
Casserole of Macaroni and Cheese
**Vegetables in Tomato Jelly
Sliced Orange Milk

Friday
Vegetable Soup—Peasant Style
Toasted Cracker
Apple Sauce Milk

*Spanish Rice with Crisp Bacon
1 cup rice
1 can condensed consommé
1 can (14 oz.) tomato juice
1/2 teaspoon salt
pinch of pepper
2 tablespoons chopped onion
2 tablespoons chopped green pepper

Cook the bacon until crisp, take bacon and 1 tablespoon of bacon drippings from pan. Add rice to the remaining bacon drippings. Add hot consommé, tomato juice, salt and pepper. Cover and simmer for 35-45 minutes, until rice is cooked and all liquid absorbed. In the meantime cook the chopped onion and green pepper in the 1 tablespoon of bacon drippings taken from pan at beginning. Chop the crisp bacon. Mix bacon, onion, green pepper and cooked rice together, being careful not to mash the rice. Serve hot. Serves 6

**Vegetables in Tomato Jelly
1 package lemon flavored gelatine
1 can (14 oz.) tomato juice
2 tablespoons lemon juice
1/2 cups chopped cabbage
1 cup shredded carrots
salad dressing
Heat the tomato juice and pour hot juice over the lemon flavored gelatine dessert. Chill until it just begins to stiffen, then add lemon juice, chopped cabbage and shredded carrots. Pour into a mold and chill until firm. Turn out on crisp greens and serve salad dressing with each serving of "Vegetables in Tomato Jelly." Serves 6-8.

Monday
Chicken Noodle Soup
Toasted Cheese Sandwich on Whole-wheat Bread
Carrot Sticks
Baked Apple Milk

Tuesday
*Spanish Rice with Crisp Bacon
Bread and Butter
Tapioca Pudding Chocolate Milk
