## President Signs Tax Bill Passed by Congress

\$3,553,000,000 Revenue Bill Will Levy Increased Taxes on Individuals and Corporations

HYDE PARK, Sept. 20 (UP)—President Roosevelt today signed the \$3,553,000,000 revenue bill levying increased taxes on individuals and corporations to meet part of the cost of financing the "arsenal of democracy."

He signed the measure at 12.15 p. m., central standard time. Even as the chief executive signed the nation's largest tax measure, preliminary discussion began in congress on a new revenue bill, which will be drafted in the light of increasing expenditures for war aid to nations battling the axis.

Most of the excise taxes will become effective October 1. These levies will be imposed on a multitude of articles from playing cards to refrigerators and automobiles. The new tax is expected to increase government revenues to a total of 13 billion dollars during the current fiscal year. The revenues still will be approximately 1 billion dollars short of the goal set by Secretary of Treasury Henry Morgenthau of meeting expenditures on the basis of two-thirds and one-third borrowing.

The treasury, even with the help of the nation's largest tax bill, expects to be at least 8 billion dollars in the red at the end of the fiscal year.
