The writer is indebted to Mr. Louis Schmidt the road and highway patrolman for assisting us when we became stuck in a mud hole and broke an axle in our car, for helping place the car on dry ground.

Miss Geraldine Schmidt, the beautician, has been suffering from the flu and was taken to the home of her parents, Mr. and Mrs. Louis Schmidt, in the country, where she is being cared for and receiving treatment.

Mr. and Mrs. Eddie Craig were over to Alvo last Sunday where they went to visit at the home of the father of Mrs. Craig, Mr. E. D. Friend, and where they all enjoyed a very pleasant visit and an excellent dinner.

Mrs. J. A. Boyd has been troubled with an ulcer on one of her eyes, which has been giving this good woman much distress, and on last Friday she went to Elmwood to consult their family physician. It is hoped that the offending eye may soon be well again.

When Frank Rosenow was over to Plattsmouth with his son Willard, who was going to Ft. **MANY SUPPORT DYE CAMPAIGN**  
Quite a response has come to the publication of an appeal in a recent issue of the National Historic Magazine for its leaders to save their cancelled stamps from which dye is extracted and sold to aid the Queen's Children's hospital in London, England.  
Any persons or organizations saving cancelled stamps in Plattsmouth may send them to Mrs. Frank R. Gobelman. An urgent appeal is being made to get as many stamps as possible, and Mrs. Gobelman announced today that the first shipment of stamps would be sent on February 12, so you still have time to send your stamps to her before the consignment leaves here.  
It is understood that the dye from the cancelled stamps is sold for 37¢ a pound and this money is used to support beds at \$150 a year each in the London hospital.  
The following instructions have been received concerning the cancelled stamps plan.  
Tear off part of the envelope containing the stamps and put it into a box; save them until there is a large number, then send them to Mrs. Gobelman.  
Do not try to take the stamp from the envelope because by doing so the task of counting them is made more difficult. The dye is extracted and sold.

**SPONSOR DOWN TOWN HOLY WEEK SERVICE**  
From Thursday's Daily—  
The Business Men's Ad Club at their regular meeting yesterday voted to again sponsor down town noonday religious services during Holy Week. Last spring this organization in cooperation with the city Ministerial Association initiated these services at the Cass Theater and they met with such wide acceptance and general approval that it was decided to repeat them this year.  
Mr. Griffin, owner of the Cass Theater, has very generously tendered the use of his fine theater again this year. This is an ideal down town location for such meetings, making it possible for business people as well as the residential district to attend at the noon hour.  
Invitations will be extended to all denominations in the city and surrounding territory to participate. Prominent speakers from away will be secured to give short, concise, helpful messages of Bible truth. Different business men of the community will act as chairman each day.  
The meetings will begin on Monday and last through to Friday noon, March 29 to April 3. The Ad club is underwriting whatever expense there may be, depending on plate offering at the door to cover it.

## 1933 ... THEN AND NOW ... 1942

Many and startling have been the advances made in American naval aircraft in the past decade. These photographs, from the Aviation News Committee, present pictorial proof of these advances. The ship in the upper photo is a Consolidated PBY-1 of 1933, a flying boat which amazed the world by its long-range flights for the U. S. Navy, including a mass hop from San Francisco to Pearl Harbor. Contrast it with the aerial battleship in the lower photo—the Consolidated PB2Y-2—the Navy's newest patrol bomber powered by four Pratt & Whitney engines. Note the numerous external braces, exposed engines and floats of the 1933 patrol bomber, as compared with the sleek, streamlined exterior of the aerial giant which is serving as the "eyes" of our fighting fleet in 1942.
