To Present Christian Motion Picture

The Immanuel Evangelical Lutheran church will present the Christian motion picture, "The Power of God" at the Eagle school house on March 25 at 8 p. m.

"The Power of God," a feature motion picture filmed in sound, tells a power-packed story of the might of God at work in the up-and-down lives of modern people. The film is jolting audiences from coast to coast.

"The Power of God" is 100 per cent Christian entertainment. Lives cross wires. Result: Sparks of laughter and of tears. The story deals with the problems of modern life: Unbelief, childless homes, poverty, wealth, youth's inopportunities. How these problems are solved makes for a story that will not be forgotten.

"The Power of God" is emotionally honest. The Christianity of this film is free from mawkish religious sentimentality. Characters, such as Jonathan, as good a neighbor as can be found, and Esther, a true mother if there ever was one, are loved for what they are, honest, real folks.

"The Power of God" is a positive Christian film, not just another religious picture. It furnishes the answer to a common demand voiced by one of the characters, Dr. Braden, to state in two minutes by the clock what Christianity really is.

Musically "The Power of God" is distinctly Lutheran, a name historically synonymous with excellence in Protestant church music.

Produced on the R. K. O. Pathe lot by Roland Reed Productions under the supervision of Rev. L. Meyer. "The Power of God" is technically in every respect a feature production. Put your expectations in high gear.
