Celebrates 12th Birthday

Twelfth birthdays don't come every day, but when they do come Winona Doty, daughter of Mr. and Mrs. Leonard Doty, thinks that they are the nicest kind of a day, for the reason that her mother invited twelve of her young friends in for a party Tuesday afternoon to help her celebrate her twelfth birthday, and it is needless to add that twelve girls of that age could find plenty to do, with Mrs. Doty directing their games. Squirrel in Predicament

Today we watched a squirrel which leaped across from the branch of one tall tree to another. It almost missed reaching the other tree, so nearly so, in fact that it barely caught hold of the very end of the limb, its weight pulling it down until the squirrel hung there by its two front feet, unable to get a foothold on the limb. We watched, wondering how to aid the graceful little creature, and not daring to go near and frighten it. Finally though, it gradually, by the aid of its mouth worked its way up far enough so that it could gain a firm foothold with all four feet, after being suspended there for about five minutes.

Lincoln Man Tells Of Life, Conditions in India

Ray Rice Speaker Before Rotary Club, Discusses Mystic Land Now In Public Eye

The local Rotary club at their luncheon on Tuesday had the pleasure of having with them Ray Rice, of Lincoln, traveler and lecturer, who told a most interesting story of life and conditions in India, now the center of world interest in its attitude toward the British empire.

The speaker told of the attitude of the two great sections of the Indian people, the Hindus and the Moslem believers. These two are divided most radically and have prevented much progress in the advancement of the country, even under the guidance of the British empire of which the state is one of the greatest possessions.

The Japanese have also infiltrated into the Indians to some extent the theory of Asia for the yellow races and against the influence of the whites in the far east.

These conditions are largely to blame for the present conditions that are troubling the political and military power of Britain in the defense of India.

The two high school boys for March gave their farewell talks on their impressions of Rotary, they being Wilbur Claus, senior and Raymond Herold, junior.

Dr. R. P. Westover was the leader of the meeting and the guests of the club were W. G. Brooks, president of the Chadron teachers college, and W. A. Metzger, USA, and senator of the third district of the Nebraska legislature.

PLEASE! NOTICE!

There will be no house to house selling of seals for crippled children this year in Bellevue. All seals will be sent through the mail. All money is to be mailed to Omaha. Sarp county will receive all money sent to Omaha from Bellevue. This is a most worth-while drive—buy your seals and use them.

Planning, Canning, Not New, But—

This business of gardens and home canning is not new to hundreds of town and farm families in Sarp county yet these same families should feel free to sign the pledge to help. By signing the pledge every member of the family can better realize that the job here at home is important too, and perhaps will be more willing to help even under more hardships that everyone will be confronted with. The Victory Home and Garden program is broader than just those two phases.

It also deals with health and nutrition, home beautification, elimination of waste, and other subjects all of which will help keep morale and win the war.

The purposes of the Victory Garden and Home program are listed as: 1. Home production, preservation and use of foods necessary for proper family nutrition. 2. Proper care of home produced foods. 3. Better health through better foods. 4. Assistance in winning final victory.

Among the advantages gained by following the program are the following: 1. The satisfaction of knowing you have made a definite contribution to the war effort.

2. Good food and better health for your family.

3. A certificate of recognition showing that you assisted in the war food production effort.
