with Bombs for Tokyo!

One year ago today—on a calm, sunny Sunday morning in one of the most peaceful spots in the world—Japanese gangsters launched the most treacherous attack in history against our country. We Americans have accepted that challenge..... we pledge to fight every hour and every minute to give Hirohito and his boys something to remember Pearl Harbor!

TODAY, on December 7th, 1942, we have stirring proof that our fighting men can hold their own against the Japs.... that our factories can turn out planes and guns in overwhelming numbers to smash the enemy..... that the American people can more than meet this threat to their country and their way of life. We didn't want this war. But now that we're in it we're going to win—not for conquest or vengeance—but for the glorious future of a free America.
