

Define Essential Farm Work For Deferment

Standards Set by the Selective Service Board for the Direction of Local Boards

Washington, Dec. 5.—(UP)—Selective service headquarters has sent local draft boards detailed instructions on classification of essential farm workers under the farm deferment clause of the recently enacted 'teen-age Draft law, it was learned today.

The instructions define an essential farm worker as "a person necessary to and regularly engaged in agricultural occupations essential to the war effort."

They set up standards in so-called war units as a guide to draft boards for placing such workers into two new classifications—2C and 3C. The standards were established in cooperation with the agriculture department.

Any farmer or farm hand who is directly responsible for the production of at least 16 war units may be deferred by his board. The instructions suggest his deferment, but do not order it.

In computing the war units, crops and livestock are divided into essential and non-essential groups. Each unit of livestock or acre of essential crop land is given a war unit rating.

For example, each milk cow is counted as a war unit. A unit also may comprise 20 hogs, 20 feed lot cattle, five acres of corn, 15 acres of wheat or 75 hens.

A typical midwestern farmer would be entitled to deferment if his farm comprised five milk cows, 60 hogs, 150 hens and 30 acres of corn—a total of 16 units.

Essential farm products, and the number of head or acres necessary to comprise one unit:

Farm beef herds, 12; Feedlot beef, 20; Range beef, 15; Stocker beef run on grass, 75; broiler chickens, 600; hens for laying, 75; Hogs, 20; milk cows, 1; Farm sheep, 30; lambs in feedlot, 160; range sheep, 40.

Fiber and oil crops—American-Egyptian long-staple cotton, 2.5 acres; castor beans, 3 acres; flaxseed and soybeans, 12 acres; hemp, 5 acres; Peanuts, Irish potatoes and sweet potatoes, 2 acres.

Field crops—Barley, wheat, grain sorghums, oats, rye, dry field peas, cover crops, hay and hay seed crops, 15 acres; corn, dry edible beans, rice, broomcorn, green peas and sweet corn, 5 acres.

Fruit trees, 1 acre; blackberries, cranberries, dewberries, raspberries, strawberries, blueberries, currants, gooseberries and quince, .7 (sevenths) acre; sugar beets, 2 acres; sugar cane, 1 acre, nuts, 5 acres.

Truck and canning crops—broccoli, brussels sprouts, collards, endive, kale, tomatoes, carrots, chard, escarole, mustard greens, spinach, turnip greens, onions, snap beans, green leafy lettuce, lima beans, green peppers, turnips, asparagus, cauliflower, cabbage, 1 acre.

Leaves For New Location

John E. Turner, who just recently resigned from the office of county treasurer, departs this evening for Lincoln where Mrs. Turner and the daughter are now located and where they will make their home for the present at least.

Mr. Turner will be at Alvo the greater part of the time to look after his elevators at that place and when the proper residence facilities are available, the family will move from Lincoln.

The community regrets very much to lose the Turner family after some sixteen years residence here, but the business opportunity offered Mr. Turner was such that he could not afford to pass it up.

While leaving here the friends are pleased that he will still be a resident of Cass county.

Rockets Win Over Locals

By Bernard Ulrich From Saturday's Daily—When Gregg McBride rated Lincoln Northeastern as the No. 1 team of the 1942 basketball season, few Plattsmouth fans will dispute the claim after seeing the capitol city boys supremacy over the Blue Devils by the score of 51 to 15 last night at the hill top gym.

Plattsmouth improved mightily since last Monday to show that the tireless working of Coach Stewart is not in vain, but meeting one of the fastest groups of basketball players that has been seen on the local court for quite some time.

Northwestern started out against the Stewarts in fine style, their height seemed to be the big thorn in the Plattsmouth side. It was 9 to 1 at the quarter and 20 to 5 at the half time.

In the second half Northeastern started throwing the ball shooting it with one arm and as the score shows it was not in vain.

Plattsmouth though outplayed were not out fought, the Blue Devils showed a spirit that will produce some highly satisfactory results in the future.

Johnson and McMaken stood out for Plattsmouth while Squires and Ward stole the show for the Rockets.
