Washington, Feb. 1—(UP)—The war department today released a statement by Lt. Col. F. L. Turner praising the 100th Infantry Battalion which is composed of men of Japanese ancestry. The war department said the statement was considered worthy of official release "not because it differs from the feeling that most commanding officers have about their present outfits, but because it doesn't." All of the soldiers are American citizens born in the Hawaiian Islands.

Antone Auserwald, the blacksmith, is back in his shop after a period of illness.

Mr. and Mrs. Walter Kupke and family of York, were visiting at the home of the parents of Mrs. Kupke, Mr. and Mrs. Andrew Schiefert, as well as with other friends and relatives near Murdock.

Surgical Dressings

The Cass County Surgical Dressings program is going into the fifth month of production which, according to allotted time for each quota should see the completion of second quota.

The facts are that as yet all of the first quota has not been received from the Co. workrooms. While some are progressing well on the second quota, greater speed must be attained in order to comply with the very urgent demand for surgical sponges.

All work rooms over the country have been notified that the army medical depots are not being filled fast enough to supply the demand for the sponge type of dressings. This means our women of America must not fail our boys who are giving their all so cheerfully. Are we going to stand by idly knowing this great need and knowing how the horrible facts of Wake, Midway and Guadalcanal, and let our boys suffer or perhaps die for want of surgical dressings to bind their wounds. Let us not forget also the ever present menace of the Atlantic subs which no doubt have sent many of our dressings to the bottom of the ocean.

The volunteer service of women and girls are expected to make 90 per cent of the dressings used as factories are already overburdened or turned to other production use. This work is not intended as a morale builder nor is it intended to fill idle or spare time for women not occupied in other lines of defense work, it is a necessity just as important as food, as ammunition for our men in the service. Our boys are being injured and need our help.

Cass Co. has a large assignment which will require the help of at least 30 or 40 women and girls working in the comfortable work rooms above the Consumers office in Plattsmouth. The room is open each afternoon from 1 to 5, Tuesday and Friday all day from 9 to 5, and Saturday evening from 7 to 9.

Certain requirements as to methods of handling the gauze have been modified, so should there be any false impression about the difficulty of the work, please come and be convinced that willingness to work and determination to not fail in our responsibility will make fingers nimble.

Santa Ana, Calif., Feb. 1—(UP)—Capt. Eddie Rickenbacker predicted last night that Germany would collapse late in 1944.

"Germany and Hitlerism will collapse about that time," he said. Rickenbacker advocated direct aerial assault on Japan.

"We cannot take back Japan island by island," he said. "It will be your privilege to carry bombs to the heart of the octopus, thereby eliminating the tentacles. It is your job to kill. You can show no pity, no sympathy. Otherwise, you will be killed."

Death of Honored Figure

Mrs. Eleanore Prohaska, widow of the late Ferdinand Prohaska, passed away Saturday and her going removes one of the well-loved figures in the community and to her family and the friends the loss will be keen.
