than sugar at any time this summer,

Livestock Markets

Reports received today indicate open them and sweeten the truit to there are still a lot of cattle and taste when the family can best spare hogs to come to market the next sugar from its weekly ration. few weeks. However, observers say Procook fruit for canning. Adda little later on in the summer, there ing sugar before heating the fruit will be a considerable gap in the will help draw out juice. Some fruits supply and Government restrictions thus treated yield enough juice of is the only thing in sight which their own so that no additional liqmight prevent a substantial advance uid is needed. in the market

This summer, before fall runs in step with the sugar ration, For start, might be a good time to cull thin sirup use 1 cup of sugar to 3 out old or inferior animals and re- cups of water or juice. For moderplace them with better quality in- ately thin sirup, use 1 cup of sugar to 2 cups of water or juice. If sour dividuals.

Livestock Diseases

Many cases of sickness and death require a medium-sirup, use 1 cup losses in pouritry and pigs have been of sugar to 1 cup of water or juice. reported the past few days. Most In place of sugar, use if you wish of the trouble has been due to a some of the mild flavored sirup like combination of animals running in honey or corn sirup. Use honey to disease contaminated yards and the replace up to half of your sugar, or bad weather. The fifth borne diseas- corn strup to replace up to one- third es can best be controlled by runn- of your sugar. A large proportion of ing the young pigs and chickens on the sirup would mask the delicate good clean pasture where they have fruit flavor. plenty of room to exercise and graze. Three dont's to end with: Don't A few days of sunshine will alsa help use in your canning any sirups that in a lot of cases.

Important Crop Meetings

Two important crop meetings are Don't use brown sugar. Don't use scheduled shortly for the College of saccharine in canning; of you wish Agriculture at Lincoln. They are the to use saccharine to sweeten canned annual Crops and Soils Field Day on fruit, add it just before serving, or June 22 and the Land Valuation and the fruit may take on a bitter taste. Mangement Short Course on June

The Crops Field Day will feature new varieties such as Cedar oats, Pawnee Wheat, Ranger alfalfa, Evergreen sweet clover and Biwing flax. All will be shown growing in experimental piots. In addition, the discussions will bring in new methods of hay making. These will include the use of the hay chopper and the baling of hay from the windrow.

The land evaluation and short course on June 18 is planned especially for farm managers, farmers, real estate dealers and others. Speakers will include specialists at the College of Agriculture, H. C. Greenamyre, secretary to Governor Griswold; Earl Carter, Lincoln lumberman; Bruce Russell, Omaha; Dr. George E. Condra and others,

Canning Fruit on Your Sugar Ration Homemakers who felt like rookies last year-putting up fruit on war rations of sugar-will swing into fruit canning this second war summer with the assurance of veterans. And new hands at home canning will have an easier time, for they may copy. The methods that worked best in canning fruit last year will suit 1943 sugar rations, say home economists of the U. S. Department of Agriculture.

The guiding rule for using the sugar is the same as last yead: Allow one pound of sugar to each four quarts of finished fruit. It usually takes 3-4 to one cup of liquid to each quart jar of fruit, to fill in around the solid food and to cover it well. The home canning sugar ration allows about 1-2 cup of sugar to use in each quart, as an average.

Here are pointers from the home economists for canning the berries. cherries and other summer fruits as they come along, so that the fruit; the sugar ration, and the home canner herself may all keep in step.

Shift the sugar to fit the fruit Sour fruits may demand-and getmore than the average. In that case, you will count on giving shortrations of sugar to some of your very juicy and sweet fruits. Often you can taste the natural flavor of sweet fruit better when less sugar is used. Put up some fruit without sugar.

Will you honor Father next Sunday by attending church? "Master, I have brought unto thee my son"

Father's Day will be observed at the

First Methodist Church

Plattsmouth, Nebr. Seventh and Main Streets

by a special sermon on the above text by the pastor, Thomas Porter Bennett ate 10:45 A M.

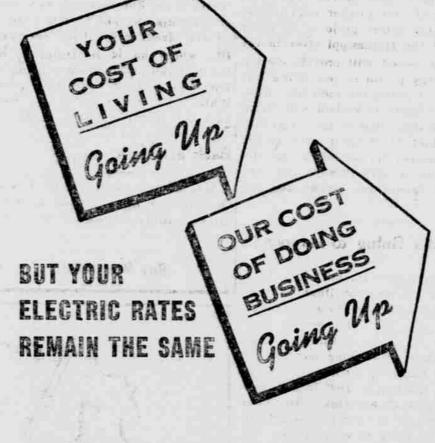

Father is a man of Faith, A man of Prayer, Father is a Lover!

Do you believe this about Father? In honor of Father we shall hold a baptismal service and reception of members.

The Vacation Church School will continue, New Scholars accepted. The program and Demonstration will take place on Sunday Evening, June 27, with the Presentation of Certificates.

Mrs. N. F. Pifer, Director

WE face the Same Problem You Face...

All of us face a common problem-RISING COSTS! Where it will all end is anyone's guess.

So far, in spite of steadily increasing cosis, we have been able to continue furnishing dependable electric service at the same low rates. These rates are among the lowest in the nation.

Our taxes are higher now than ever before in our Company's history. For the last twelve months they totaled \$1,800,000 — an increase of \$350,000 over the year before.

Other costs are up.

Materials necessary to maintain your service are now not only higher in price, but harder to get . . . yet we know that to you, as to us, the most important thing is winning this war. We feel sure all of you want us to do everything we can to help win the war . . . and we are! At the same time we also are doing everything we can to continue furnishing you with good electric service at the lowest rates possible.
